

# Student Drive for Funds for Viet Nam

A Thanksgiving drive is underway at Hope High School this week to collect funds sufficient to support a school for underprivileged Vietnamese children in the town of Hac Mon, Vietnam.

The project, which is under the joint sponsorship of the Student Council and the Hope Hi-Lights has been organized to send vitally needed supplies to a school which is being manned by seven part-time teachers, all American soldiers.

The teaching staff of the school are all members of a special Army engineering squadron, which is under the command of Maj. Charles Downs brother of HHS guidance counselor, Earl Downs.

The school, which has an enrollment of 324 children, was built completely the manual labor of many local Vietnamese people.

In a letter to his brother, Maj. Downs explained that the Vietnamese in that section are a very proud people and that even though they gratefully accept the soldiers' help, still they insist on having a part in the building of the school.

However, there are many essential supplies which can not be acquired such as desks, books, pencils, paper, blackboards, and chalk—the fundamental teaching aids.

This is the gap which hopefully will be filled by the contributions sent by the students of Hope High School, in Hope, Arkansas, half way around the world from Hac Mon.

The money collected this week will be used to buy school supplies wholesale and to send them to Vietnam.

The entire project will include three such drives including the addition of similar campaigns in February and April of next year to help supply the continual need of the school.

The drive is being carried out with the idea of sending help from the youth of America to the youth of Vietnam. However, the project has another purpose in that it is a direct gesture of support to the American soldiers in Vietnam.

Hope High School Principal, Grady Cathey kicked the campaign off last Friday by making out a check which was the first contribution to the fund.

Anyone who may want to contribute to the fund is asked to phone the Hope High School Office.

## Hospital Notes

BRANCH: ADMITTED: Ronald McKamie; Hope; Loreen Stevens, Blevins; DISCHARGED: William Welsh; Hope; Mrs. Rachael Butler, Hope; Mrs. Cecil Sanders, Hope; Roy Phillips, Hope—  
MEMORIAL: ADMITTED: Billy Bob White, Hope; Mrs. Denton Harvin, Hope; Mrs. Lucy Davis, Hope; Gregory Impson, Hope.  
DISCHARGED: Robert Cosh, Hope; John Booth, Hope; Mrs. Harv Burns, Hope; Clyde Rosenbaum of Saratoga, Mrs. Irma Odem of Fulton.

Mr. and Mrs. Gordon Carney of Hope announce the arrival of a baby girl Monday, November 21.

## Witness Is Satisfied With Report

By JACK DONOVAN  
DALLAS, Tex. (AP) — A survivor of the Normandy Invasion, who nearly 20 years later witnessed another fateful moment in history, said today "I am more than satisfied" with the Warren Commission's findings on the Kennedy assassination.

At the same time he criticized authors of recent books seeking to disprove the commission report, saying, "This is nothing but cheap sensationalism on these people's part."

It was three years ago today that Charles F. Brehm, then 38, stood with his son less than 20 feet from President John F. Kennedy's limousine and saw him slump mortally wounded.

"I was so fascinated in looking at him I did not know anyone else was around. That's why I'm so positive of his actions," Brehm said in an interview.

Brehm was never called before the commission, which concluded that two rifle shots fired by Lee Harvey Oswald from the Texas School Book Depository just west of the downtown Dallas area struck the president.

Neither were statements he gave authorities entered as exhibits.

"I see no reason why I should be called. I did not see the man who shot him. I did not see the shots fired. I don't feel that anything I would have said would have had any bearing on their outcome," he said.

Brehm said he knows nothing about anything that happened after, he said, he heard three rifle shots and saw two of them hit the president.

"These are the facts, this is the truth," he said of what he saw Nov. 22, 1963, when he took his son Joe, then 5, to see the president.

"I decided the best place to see him was from Main Street. We could get a better look when the car slowed to make the corner. He was in full view all the time."

"When the first shot went off I really didn't think it was gunfire. He (the president) had a sense of humor, and when his hands went up to the sides of his neck I thought he was making a gesture. I thought it was a backfire."

"Then the second shot hit him. He went down. He just went down. I knew the sound that bullets make, and it was at this time that I thought it was shooting."

"It was too weird to think that he was really shot. When I realized he had been I was trying to push that car to go, go, go."

"I fell with the boy on the ground. The third shot really upset me. I knew he was hit the first two times but the third one didn't make any sense at all."

Brehm said, "I contend that the third shot went wild."

## Girl Is Missing 14 Days, No Clue

BARTOW, Fla. (AP) — The search for missing 14-year-old Connie Weeaks went into the eighth day today, and the Polk County Sheriff's office said it had no solid clues.

The girl disappeared a week ago as she waited in her father's station wagon for him in front of an employment office in Bartow.

# Combat Status in Uneasy Korean Peace

By SAM JONES  
DEMILITARIZED ZONE, South Korea (AP) — The war and the fighting are in Viet Nam now and it's only "combat status" for the American soldier who patrols an uneasy Korean peace in the aftermath of a war that ended more than 13 years ago.

In Viet Nam, U.S. fighting men stand up to sweaty heat, flooded rice paddies, leech-filled streams and a wily, crafty foe. Bullets fly and mortar rounds whisper in daily; and much blood is shed. In Korea, U.S. troops are more apt to face biting cold and the fearsome noises of night; but blood still is shed.

And reminders of war are close at hand along the 151-mile demilitarized zone that separates North and South Korea.

The chicken wire stretched on frames over dug-in guard posts to prevent grenades from being lobbed in on the guards.

The training each man at the zone gets in how to set an ambush for North Korean infiltrators and how to avoid ambush himself.

And there was a grim reminder on Nov. 2 when a North Korean ambush killed six U.S. soldiers and a Korean on routine patrol just south of the armistice line in South Korea. It was the latest in a series of incidents that began along the line Oct. 15.

The armistice ending the Korean War was signed on July 27, 1953, and it created a 2½-mile wide no man's land as a basis for policing the peace. The zone is supposed to be free of armed activity and the armistice commission meets periodically in Panmunjom to talk fruitlessly about violations of the zone.

The rules governing activity at the zone are complex and American soldiers carry small cards listing them.

Largely an empty strip of land, the zone winds over hills and mountains, down into long overgrown rice paddies and across battlefields where the debris of war is visible. U.S. servicemen, who number about 50,000 in Korea, patrol an 18½-mile sector of the line, and South Koreans man the remainder.

The American manning the patrols along the zone is 19 to 22 years old and he usually has had 4½ months of basic and advance infantry training before arriving in Korea. More often than not, he's a draftee.

If the soldier is assigned "up north," beyond the Imjin River to the American sector of the demilitarized zone, he gets five days of special training on setting ambushes and countering enemy ambushes.

There are three battalions on the front in the American-occupied sector. Once he gets "up north," the soldier finds another world from "down there, south of the river" where quarters are good and the duty hours are from 9 to 5, five days a week.

A soldier north of the Imjin in a typical infantry company spends a week of guard post duty inside the zone, a week of patrol duty along the zone and a week in company training during a three-week cycle.

With the snow of winter, concealment for North Korean infiltrators becomes more difficult and hostile incidents fall off. But policing the truce continues — mostly dull, without glamor and sometimes dangerous.

# By Golly, There IS a Lot to Be Thankful For

## Pilot Has No Part of Plane Landing

ABOARD USS AMERICA (AP) — The jet fighter-bomber touched down on the aircraft carrier's landing deck, snagged a cable and screamed to a sudden stop — a noisy but perfect landing. The pilot had nothing to do with it.

The F4 combat plane was landed safely Monday on the America, the nation's newest flattop, by a complex system of radar and computers operated by a control center deep inside the ship.

The revolutionary, "Look ma, no hands" concept is being developed in a hurry by the Navy, seeking to reduce landing accidents at night and in foul weather during Southeast Asia operations.

The system, expected to undergo final operational tests next spring, has a secondary purpose: to make it easier for carrier pilots to qualify for night flying and thus ease the growing shortage of carrier attack pilots in Viet Nam.

Known as the All-Weather Carrier Landing System — ACLS — it works this way:

As the pilot begins his approach to the carrier, radar and computers provide precise data on the plane's position. This, along with data on the roll, pitch and yaw of the landing deck, is relayed to a computer that calculates the movement of the carrier and the desired position of the plane as it begins its descent and actually lands.

The computer sends precise commands to the plane, which are converted into signals that drive the automatic pilot for a safe "hands off" landing.

The Navy's first public demonstration of the landing system was made relatively simple for Monday by the calm seas and clear skies of the Atlantic Ocean. But officials said the device can work even in the foulest of weather, when the landing deck sometimes rises and falls 60 feet.

## Spring Hill, Blevins Split

Spring Hill and Blevins tangled last weekend and Blevins took home one victory in three games. The Blevins Senior boys handily won 70 to 34. Spring Hill Juniors won the opening contest 50 to 17 with Downs tossing in 33 points. The Senior Girls also won 63 to 48. McNeill was high with 30 points.

## Popularity of RFK Is Uncertain

By JACK BELL  
WASHINGTON (AP) — Three years after the assassination of his presidential brother, Sen. Robert F. Kennedy is riding an uncertain crest of political popularity.

Since the Dallas tragedy, the New York senator has carved out for himself an ambivalent political position in which he stands both with and against President Johnson.

That this is leading him toward an eventual bid for the presidency few are willing to deny. But the timing and circumstances for any such bid apparently remain uncertain quantities to the senator himself.

Kennedy is on record as saying he expects to support Johnson for re-election in 1968, that he will not seek the vice-presidential job now held by Hubert H. Humphrey and that he expects to bid for re-election to the Senate in 1970.

Taken at face value, this leaves only one obscure alternative for entry into the lists before 1972 — the bare possibility that President Johnson might not seek re-election two years from now. The Kennedys, it might be noted, overlook few possibilities.

While the current polls point to Kennedy, who was 41 last Sunday, as possibly the most popular individual Democrat, such popularity may need a great deal of bolstering to keep its flag flying high as the years tend to dissipate the wave of sympathy flowing toward him because of his brother's murder.

As politicians view his future, Kennedy will have to continue to chisel out individual positions on the major issues of the day.

This is a politically delicate process. It does not allow many casual mistakes such as his off-the-cuff observation at Berkeley, Calif., last month that he doesn't believe the people of South Viet Nam want Premier Nguyen Cao Ky.

Critics immediately accused Kennedy of trying to undercut Johnson at a critical point.

Although Kennedy has become something of a hero to Democratic liberals because of his dissent to Johnson policies, the New York senator has been careful to limit his suggestions primarily to calls for wider efforts to gain peace in Asia.

STAKE TO HONOR DUPONT WILMINGTON, Del. (AP) — Delaware Park race track's 1967 summer meeting will include a \$50,000 added William duPont Jr. Handicap to honor the memory of the track's founder who died at the age of 69 in December, 1965. The race will be for 3-year-olds and upward.

# Casualties Heavy in Small Battle

By ROBERT TUCKMAN  
SAIGON, South Viet Nam (AP) — U.S. infantrymen tangled with North Vietnamese regulars in two small night fights today in the central highlands north of the battlefield on which U.S. air cavalrymen took heavy casualties Monday.

Units of the 25th Division skirmished with the North Vietnamese 12 miles southwest of the U.S. Special Forces camp at Plei Djerin and 13 miles northwest of the Green Beret camp. Three North Vietnamese were reported killed in the first clash. There was no word of casualties in the other.

A U.S. military spokesman said the North Vietnamese inflicted heavy casualties on a three-platoon force of about 105 men of the U.S. 1st Cavalry, Airmobile, Division in Monday's fighting 22 miles southwest of Plei Djerin.

The spokesman said one platoon — about 35 men — was overrun and took the brunt of the casualties. He would not comment on reports that there were only three survivors in the platoon. U.S. military officials consistently refuse to give specific casualty figures in any action on grounds of security.

The North Vietnamese killed several wounded Americans as they swept across the battlefield, the spokesman reported.

The cavalrymen reported killing 102 North Vietnamese with the aid of air strikes and artillery. The North Vietnamese force was estimated at a battalion of about 500 men in all, and the force that overran the cavalry platoon was reported to be 150 to 200 men.

U.S. B52 bombers roared over the Plei Djerin area today in support of the 25th and 1st Cavalry divisions and dropped their bombs on a North Vietnamese staging area 17 miles west of the Special Forces camp.

Only small, scattered ground action was reported elsewhere in Viet Nam.

Over North Viet Nam, the bad flying weather of the past two weeks persisted and U.S. pilots flew only 41 missions Monday. They hit at storage areas, roads and truck parks, mostly in the southern panhandle.

U.S. pilots flew 473 single-plane sorties Monday against Viet Cong camps, storage areas and fortified positions in South Viet Nam. South Vietnamese pilots flew 147.

The U.S. Navy announced that one sailor was killed and five were injured aboard the destroyer Philip Sunday when a highline rig collapsed during refueling in the Gulf of Tonkin off North Viet Nam.

The highline was rigged between the Philip and the tanker Navasota and was being used to transfer mail and supplies. The Navy said a coupling on the line parted.

Stir a little bottled horseradish into canned applesauce and use as a quickly made accompaniment for roast turkey or chicken. This sauce is also good with pork chops or roast pork.

Don't Shiver or Shriivel  
Cream your hands and legs before your day in the cold. Then be sure to bundle up warmly for that football game. No one enjoys a shivering daytime date, nor rough, red, shriveled-up on for the evening.

## Put your faith to work today

THIS MEANS YOU!

## "Even the Everglades couldn't make my test 'Jeep' Wagoneer say uncle."

Mechanix Illustrated's Tom McCahill goes on a turkey shoot with 'Jeep' Wagoneer.

During my road test of the new 4-wheel drive 'Jeep' Wagoneer for Mechanix Illustrated, I took it on a turkey shoot in the Florida Everglades. Getting there was half the fun. The Wagoneer cruised effortlessly as fast as the law allowed. Its power steering is smooth and easy; the ride soft as silk. But when I got there, I flipped it into 4-wheel drive and plunged into the muck of the swampland. This comfort-

able, cushy car plowed through like an assault vehicle. It was uncanny that a handsome, luxury station wagon like the Wagoneer could perform in the boon-docks with the same easy-going attitude it had on the highway. It's just about the perfect all-around car—good looking, comfortable and, in 'Jeep' 4-wheel drive, it'll go just about anywhere you've got a mind to take it. What more could you ask for?

You've got to drive it to believe it. See your 'Jeep' dealer. Check the Yellow Pages.

Phone 7-3431 Between 8 A.M. and 4 P.M.

### Calendar of Events

**NOVEMBER 22, TUESDAY**  
Cosmopolitan Club will meet Tuesday, Nov. 22 at 7:45 p.m. in the home of Mrs. McDowell Turner with Mrs. Teddy Jones as co-hostess.

**WEDNESDAY, NOVEMBER 23**  
The Hope Jr. Auxiliary will meet on Wednesday, November 23 at 10:00 a.m. at the Chamber of Commerce office with an Executive Board meeting at 9:30 a.m.

**THURSDAY, NOVEMBER 24**  
The annual Thanksgiving Service will be held Thursday, November 24, at the First Assembly of God Church at 9:00 o'clock a.m. and the Rev. Johnnie Beasley, pastor of the First Christian Church in Hope will be the special speaker.

The members of the Hope Ministerial Alliance will be participating on the program and the public is encouraged to attend.

**MONDAY, NOVEMBER 28**  
Girl Scout troops will meet from 3:30 until 4:30 p.m. Monday, November 28 on the 1st Baptist Church lawn at Main and 3rd to rehearse Christmas carols.

**ROBERTS-HICKERSON VOWS EXCHANGED**  
Mrs. Lillian Roberts of Hope and Gus Hickerson of Nash, Tex., were united in marriage Sunday, November 20 at the Emmet Methodist Church with the Rev. Calvin Miller officiating. Mrs. Verle Koonce of Texarkana played program of organ music for the double-ring ceremony.

The bride was attired in a jacket dress of champagne wool with matching hat and an orchid corsage. Mr. and Mrs. Charles W. Gilbert Columbus Road, and Mr. and Mrs. Richard E. Roberts, Calvert, Tex., were the couple's attendants.

Ushers were Bruce Smith Shreveport, La., and A. C. Sinyard, Hope.

Following the wedding ceremony a reception was held in the bride's home on the Blevins Highway. In the house party were: Mrs. Fred Camp, Mrs. Jack Harshfield, Mrs. Leon Willis, Mrs. Clarence Gilbert, all of Hope; Mrs. Paul O'Rear and Mrs. Loyless Hooker, both of Texarkana.

After a wedding trip to Hot Springs, Mr. and Mrs. Hickerson will make their home at the Blevins Highway residence.

## Coming, Going

Mr. and Mrs. Joe B. Warren and family, Dallas, spent the weekend with Mr. and Mrs. Wade Warren.

Among those at the performance of "Hello Dolly" in Little Rock Saturday were Mrs. Charles Dana Gibson, Calvin Marshall of Little Rock, Dr. and Mrs. John Nix of Texarkana, Mr. and Mrs. Floyd Leverett and daughter, and Mr. and Mrs. Jim Cole.

Dr. Jim McKenzie, Bob Peterson, Dr. F. C. Crow, and Melvin Thrash attended an inter-club meeting of the Kiwanis Club in Arkadelphia earlier this month, and Dr. Lynn Harris and new local club officers attended a district training conference in Camden Sunday.

Mrs. Carol Smith, Muscle Shoals, Ala., arrived Monday night to spend a few days with her grandmother, Mrs. G. B. Morris.

### BIRTH

Mr. and Mrs. Edward Marsh of Dallas are the parents of twin sons, born November 11. They weighed 6 pounds, 15 ounces, and 6 pounds, 8 ounces, and have been named Edward Lee and Wallace Todd. Mrs. Marsh is the former Ellen Kennedy, and the maternal grandmother is Mrs. Horace Kennedy of Marshfield, Mo.

## Television and Radio

By CYNTHIA LOWRY  
AP Television-Radio Writer  
NEW YORK (AP)—The pace perked up Sunday night on two television fronts that needed a little speed-up.

"The Garry Moore Show" on CBS, which has been in ratings difficulties, tossed away its variety format for one night anyway and mounted a short version of a 19-year-old musical, "High Button Shoes."

NBC's Telephone Hour, which has been trying to combine a bit of serious music with some documentary effects, finally found a subject that responded to that treatment.

"High Button Shoes" on Broadway was blessed with a gay and witty score by Julie Styne and Sammy Cahn. When it was necessary to prune the show to fit one of television's 50-minute hours, the cuts came in the plot which left the best part—the music, songs and dancing—for the living room audience.

For this special show, Maureen O'Hara was around to play mama and demonstrate a pretty, light voice. Carol Lawrence danced beautifully and sang, too, as Sister Fran. But the performer who ran away with the evening's honors was Jack Cassidy, playing a deliciously larcenous con man.

The producer of "The New Met: Countdown to Curtain" apparently started covering opening preparations for the new opera house and the premiere of Samuel Barber's "Antony and Cleopatra" three weeks before the big event. He concentrated on general manager Rudolf Bing, director Franco Zeffirelli and prima donna Leontyne Price. But he could not have known he was going to be involved in such a cliffhanger.

Could they fix the turntable on stage or would they have to restage the most dramatic scene? Would the giant pyramid dominating the stage get stuck again, trapping Miss Price inside? Would the musicians strike in mid-performance? Would all the principals have nervous breakdowns?

Cameras were all over the place. We saw overhead snapshots of exasperated conversation from Bing, Zeffirelli and others, in gesture and word, showed the terrible tension under which they worked. Tempers were short. Everyone was rushed, Miss Price, retreating exhausted from a difficult rehearsal, was overheard to say, "I'll never get out of here with my life. I know it."

Eventually, somehow, the curtain was raised on the new golden Metropolitan Opera House and the new opera had its premiere.

Miss Price remarked, "Wow, what a night!" And it made quite a television program, too, handsomely and intimately photographed and full of small moments more dramatic than anything that later appeared on the great stage.

ABC seems to have come up with a sports equivalent of its "Bridge on the River Kwai" broadcast. It expanded its station lineup for the Michigan State-Notre Dame game Saturday and reported that preliminary estimates by a rating service gave the football game an audience of about 33 million people—the record, ABC claims, for a "regular season" football game.

## Wedding Anniversary

MR. AND MRS. ROY E. BAILEY

Mr. and Mrs. Roy E. Bailey of 2724 Pine Street in Texarkana are celebrating their 50th wedding anniversary on Saturday, December 3rd at the Highland Park Baptist Church at 24th and Hazel Street.

They are being honored with a reception by their children, Mrs. James W. Wray of Evergreen Colorado, Mrs. Ralph H. Grubbs of Nashville, Tennessee, Mrs. Garmett H. Smith of Fort Oglethorpe, Georgia and Roy E. Bailey Jr. of Natchitoches, Louisiana.

The couple was married December 3rd 1916 at the home of the bride's parents, Mr. and Mrs. W. H. White in the Whites Chapel Community near Rosston, Arkansas.

They have lived in Texarkana for the past 21 years and are members of the Highland Park Baptist Church.

No invitations will be mailed. Calling hours are 2-4 in the afternoon Saturday, December 3rd.

HELEN HELP US!

YOUTH ASKED FOR IT!  
This column is for young people their problems and a few pleasures, their troubles and fun. As with the rest of Helen Help US!, it welcomes laughs but won't dodge a serious question with a brush-off.

Send your teenage questions to Helen Help US!, this newspaper.

**HONESTY WILL GET ME IN TROUBLE**  
Dear Helen: My folks are always complaining about me "ruining my eyes" with too much television and reading in too dim a light, and reading too much and all that jazz. They say I will go blind. Is this true? — TOM

Dear Tom: Honesty will get me in trouble with your parents — who probably have excellent reasons for not wanting you to overdo an all these counts. . . . But "going blind" is not the right one! If they'll check with an eye physician or optician, they'll find that television, poor lights, reading too much "and all that jazz" cannot ruin your eyes, though the strain can cause headaches — especially if you need glasses. — H.

Dear Helen: I like a boy very much, but I don't say "hello" to him because I'm afraid he might not answer. I got to thinking maybe he doesn't say "Hi" to me for the same reason. Is it the girl's place to say it first? — P.H.M.

Dear P: If you know each other, for goodness sakes, ACT like it! Which one says "Hi" first doesn't matter. The point is — somebody should say it. People who don't speak because they're afraid they'll be snubbed, soon get the reputation of being snobs. — H.

Dear Helen: This is a word to those who might be called "Chicken." I was called this by friends and a boy I liked. Well, I took a dare and went along with him when he played "chicken." The two cars didn't hit but his went out of control and we went into a bank.

You might say we were lucky. We didn't get killed. But the hospital bills were enough to about break my parents, and the pain wasn't exactly easy to take. I have a scar I'll never outgrow, and, of course, it's on my face.

Nowadays when anyone calls me "chicken" I use one of your expressions: "Better a live chicken than a dead duck." — NO

**MORE RUSHIN' FOULETTE**  
Dear Helen: I'm a college student, a girl. This has been bothering me for some time. I have to work my way through, otherwise I couldn't get my degree. My brother had summer jobs that paid him over \$500 a month—and then got evening work at a service station, so college was a breeze for him. But me? I'm lucky if I can get work at

Gary Lewis Starts GI Duty on TV

By DICK KLEINER  
Hollywood Correspondent  
Newspaper Enterprise Assn.

**HOLLYWOOD (NEA)**  
**FOOTLOOSE AND FANCY FREEWAY—**  
If all the details can be worked out, Gary Lewis will be inducted into the Army on the Ed Sullivan Show on Dec. 4. . . . The Army thinks it would be good for national morale to have an induction telecast. . . . Now, if we can only do something about The Monkees. . . .

Dick Van Dyke, says Mary Tyler Moore's bad reviews, in the out-of-town tryout of "Holly Golightly," were caused by the fact that she had a horrible cold, which she told nobody about. . . .

A brand new face with a brand new body — her name is June Fairchild — gets the big build-up in the movie version of "Peter Gunn," but it looks like Laura Devon for the feminine lead.

Shari Lewis writes that she's coming out here for 12 days "in the course of which I will do 14 television shows—Milton Berle, Hollywood Palace, two Pat Boones, five PDQs and five Hollywood Squares."

Nothing like keeping busy.

Has anyone noticed the trend toward making crime funny? Lately, we've had "How to Steal a Million," "The Fortune Cookie" and "Penelope," which find comedic values in stealing paintings, defrauding insurance companies and robbing banks. "A Garden of Cucumbers," now being shot, deals with

## Bob Thomas at the Movies

By BOB THOMAS  
AP Movie-Television Writer  
HOLLYWOOD (AP) — "What I'm doing is a mistake," says Hawaii's Don Ho. If that is true, then a lot of other entertainers would like to be so mistaken.

Ho's opening at the Coconut Grove last week was something the Hollywood crowd had never seen before. The venerable Grove was packed to the palm trees with a throng that cheered their hero as if he were Sandy Koufax. A stream of toothsome lasses came to the bandstand throughout the performance to donate a kiss and let to Ho.

Celebrities cast off their inhibitions, if any, to accept Ho's invitation to perform. Among them: Ricardo Montalban, Adam West, Petula Clark, Roger Smith, Pat Boone, Bill Dana, Nancy Sinatra.

Between the guest performances, amateur and professional, Don Ho offered his own brand of entertainment. It is unique, a combination of a luau, clambake and community sing.

Backed by a talented five-piece combo of young islanders, Ho sings throaty ballads and jivey Hawaiian songs that are a far reach from "Sweet Lullaby." His black hair tossed on his forehead, he sits before an electric organ and talks sleepily to the audience, sometimes injecting his interpretation of Hawaiian history — "The Boston people came and taught us how to pray, and when we lifted our eyes, our land was gone."

Even when it appears that Ho is on the edge of slumber, the audience listens with rapt attention. On opening night the audience saluted him with a standing ovation.

Ho has been doing his act at a Waikiki barn called Duke Kahanamoku's, where his drawing power was evidenced by a new contract calling for a half-million dollars per year. Except for scattered engagements and growing sales of his record albums, his impact has not been felt on the mainland.

That may soon be changed. He will appear on Hollywood Palace in January, at the Americana Hotel in New York late this month, and the Sands in Las Vegas next March.

All this is a mistake? "That's right," said the quiet-spoken Ho, who is one-quarter Hawaiian — the rest: Chinese, Portuguese, German, Dutch. "I expected to be an Air Force career man. I didn't even start entertaining until I was 29, and that was six years ago."

Ho had grown up in his mother's bar, Honey's Lounge, on the windward side of Hawaii. He became an Air Force officer. He served all over the United States for five years, then learned his mother was giving up the bar because of illness.

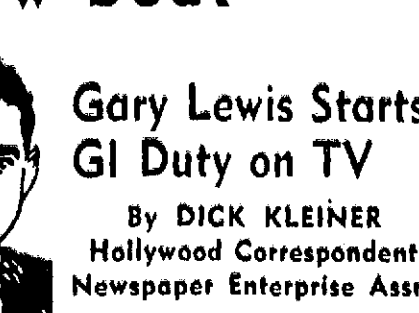

"That hit me hard," he recalled. "Honey's had always been home to me, and I couldn't think of it being shut down. So I resigned and came home to run it. Business wasn't very good, and I tried to improve things by learning to play the organ and entertaining the customers with my mistakes."

Honey's became a favorite spot for Honoluluans, but Ho couldn't break into the Waikiki big time. He hired his own "Hole in the Wall" at \$750 a month and ever since he has been a local hero just a few notches below King Kamehameha.

Gary Lewis Starts GI Duty on TV

By DICK KLEINER  
Hollywood Correspondent  
Newspaper Enterprise Assn.

**HOLLYWOOD (NEA)**  
**FOOTLOOSE AND FANCY FREEWAY—**  
If all the details can be worked out, Gary Lewis will be inducted into the Army on the Ed Sullivan Show on Dec. 4. . . . The Army thinks it would be good for national morale to have an induction telecast. . . . Now, if we can only do something about The Monkees. . . .

Dick Van Dyke, says Mary Tyler Moore's bad reviews, in the out-of-town tryout of "Holly Golightly," were caused by the fact that she had a horrible cold, which she told nobody about. . . .

A brand new face with a brand new body — her name is June Fairchild — gets the big build-up in the movie version of "Peter Gunn," but it looks like Laura Devon for the feminine lead.

Shari Lewis writes that she's coming out here for 12 days "in the course of which I will do 14 television shows—Milton Berle, Hollywood Palace, two Pat Boones, five PDQs and five Hollywood Squares."

Nothing like keeping busy.

Has anyone noticed the trend toward making crime funny? Lately, we've had "How to Steal a Million," "The Fortune Cookie" and "Penelope," which find comedic values in stealing paintings, defrauding insurance companies and robbing banks. "A Garden of Cucumbers," now being shot, deals with

## Bob Thomas at the Movies

By BOB THOMAS  
AP Movie-Television Writer  
HOLLYWOOD (AP) — "What I'm doing is a mistake," says Hawaii's Don Ho. If that is true, then a lot of other entertainers would like to be so mistaken.

Ho's opening at the Coconut Grove last week was something the Hollywood crowd had never seen before. The venerable Grove was packed to the palm trees with a throng that cheered their hero as if he were Sandy Koufax. A stream of toothsome lasses came to the bandstand throughout the performance to donate a kiss and let to Ho.

Celebrities cast off their inhibitions, if any, to accept Ho's invitation to perform. Among them: Ricardo Montalban, Adam West, Petula Clark, Roger Smith, Pat Boone, Bill Dana, Nancy Sinatra.

Between the guest performances, amateur and professional, Don Ho offered his own brand of entertainment. It is unique, a combination of a luau, clambake and community sing.

Backed by a talented five-piece combo of young islanders, Ho sings throaty ballads and jivey Hawaiian songs that are a far reach from "Sweet Lullaby." His black hair tossed on his forehead, he sits before an electric organ and talks sleepily to the audience, sometimes injecting his interpretation of Hawaiian history — "The Boston people came and taught us how to pray, and when we lifted our eyes, our land was gone."

Even when it appears that Ho is on the edge of slumber, the audience listens with rapt attention. On opening night the audience saluted him with a standing ovation.

Ho has been doing his act at a Waikiki barn called Duke Kahanamoku's, where his drawing power was evidenced by a new contract calling for a half-million dollars per year. Except for scattered engagements and growing sales of his record albums, his impact has not been felt on the mainland.

That may soon be changed. He will appear on Hollywood Palace in January, at the Americana Hotel in New York late this month, and the Sands in Las Vegas next March.

various kinds of larceny. What we need, to round out the picture nicely, is a hilarious tale of a mass murderer. And we can all laugh heartily on the way to the fall of Western civilization.

You've probably noticed that the Bell Telephone Hour this season has no commercial interruptions, merely one message at the end of the hour. I talked to John Howland, AT&T's advertising manager, about this departure.

Howland admits that the Bell show differs from the average program—"We're selling an image, not soap."

"But we're not doing it just to be nice guys," he says. "We had selfish reasons, too. We want to make friends, not enemies."

Next time you get a wrong number, remember the commercialless Bell Telephone Hour and don't get mad.

Mark Richman proudly showed off a television show called "David Chapter III" which he starred in on the Canadian Broadcasting Company's fine program, Festival. Dozens of top Hollywood stars attended the showing because the word-of-mouth about the show had been good. It should help Mark tremendously—in the tour de force, he showed himself to be an expert comedic actor, to go along with the dramatic ability everyone knew he had.

There's a lot more than ratings which determine the life or death of a television show. ABC wanted to ax one of its low-rated westerns—either The Monroes or Shane. There wasn't much to choose between them in the standings, but Shane was killed off.

Why? Because The Monroes was cheaper.

On their seventh anniversary, Richard Brown gave his wife, Eva Gabor, a sable coat. It's going back.

"I'm not that crazy about it," Eva says, "and, besides, it never gets cold enough for sable here. Mink, yes. Sable, no."

## Pint-Size Santas Do Bring Joy to Mom

NEW YORK—(NEA)—As the holidays draw near, the rush for a gift for "the most important person" on your list is about to begin.

No matter how early we start our thinking on this matter there are some things mommies and teachers and grandmas and housekeepers would love to have but feel it's too much of a luxury to buy for themselves.

Aside from the unsurpassed way of saying "Merry Christmas, with love" by making the gifts yourself, either by baking, sewing, knitting or crocheting and painting, there is still another way to make her happy.

The following "pretty-making" and pampering ideas have been compiled with extra thought given to money earned from an allowance, baby-sitting fees or leaf-raking chores.

Everything listed here can be purchased for \$3 or less.

Jean Nate's Moisture Massage is a creamy lotion to rub on after the bath for an elegant feeling (\$2.50). This company also has Bath Powder (\$2.50) and Bath Crystals (\$2).

Guerlain offers a hair spray called Capillaque scented in any of the fragrances to match their perfume (\$3). Three bars of Fleur des Alps hand-size soap is a special

felt on the mainland.

That may soon be changed. He will appear on Hollywood Palace in January, at the Americana Hotel in New York late this month, and the Sands in Las Vegas next March.

All this is a mistake? "That's right," said the quiet-spoken Ho, who is one-quarter Hawaiian — the rest: Chinese, Portuguese, German, Dutch. "I expected to be an Air Force career man. I didn't even start entertaining until I was 29, and that was six years ago."

Ho had grown up in his mother's bar, Honey's Lounge, on the windward side of Hawaii. He became an Air Force officer. He served all over the United States for five years, then learned his mother was giving up the bar because of illness.

"That hit me hard," he recalled. "Honey's had always been home to me, and I couldn't think of it being shut down. So I resigned and came home to run it. Business wasn't very good, and I tried to improve things by learning to play the organ and entertaining the customers with my mistakes."

Honey's became a favorite spot for Honoluluans, but Ho couldn't break into the Waikiki big time. He hired his own "Hole in the Wall" at \$750 a month and ever since he has been a local hero just a few notches below King Kamehameha.

## Porks Drop Right Out of Standings

Ara Parseghian took it all in stride but Duffy Daugherty is beginning to feel persecuted.

Parseghian's Notre Dame football team edged out Daugherty's Michigan State club by a scant three points in this week's Associated Press college poll after they fought to a 10-10 tie last Saturday. It was one of the closest counts in the history of the poll.

"We were ranked No. 1 last week," Parseghian said on hearing the news, "and Michigan State didn't beat us, and I think we deserve to be on top again."

Daugherty, however, was not convinced.

"I would hope that as the writers take time to reflect," he said, "they would reward this great gang of Spartans for their great effort in the last two seasons."

"No one could be more worthy than this group that played like champions and fought right down to the wire."

This was the second year in a row that Michigan State has had its troubles with the poll. Last season, the Spartans were ranked first at the end of the regular season but were replaced by Alabama when they lost to UCLA, 14-12, in the Rose Bowl.

Notre Dame received 556 points in the poll to Michigan State's 553. The Irish had 23 first place votes to 13 for the Spartans with 14 ballots naming both teams in a tie for first place. Points are awarded on the basis of 10 for a first-place vote, nine for second, etc.

But Michigan State made the count close with 27 second-place votes against 15 for the Irish. Alabama was third with 467 points and eight first-place votes and Nebraska was fourth with 401 points and a lone first-place ballot.

The rest of the Top Ten were Georgia Tech fifth, UCLA sixth, Georgia seventh, Purdue eighth, Florida ninth and Southern California 10th.

Michigan State is through for the season but Notre Dame's hopes for continuing in first place depend on its meeting with Southern California Saturday in Los Angeles.

The Top Ten, with first-place votes in parenthesis, and total points:

1. Notre Dame (37)	556
2. Michigan State (27)	553
3. Alabama (8)	467
4. Nebraska (1)	401
5. Georgia Tech	336
6. UCLA	278
7. Georgia	201
8. Purdue	136
9. Florida	99
10. Southern California	62

## Mikita in Scoring Lead in Hockey

NEW YORK (AP) — Stan Mikita, the master playmaker in Chicago's National Hockey League-leading attack, has opened a five-point lead in the individual scoring race.

Mikita picked up a goal and four assists in three games last week for a total of 21 points. Norm Ullman of Detroit, who shared the lead with Mikita at 16 points a week ago, was blanked in two starts but still holds a two-point edge over third-place Rod Gilbert of New York, according to official NHL statistics released today.

"God's work must truly be our own"

Put your faith to work today.

LOS ANGELES—Joe Frazier, 205, Philadelphia, stopped Eddie Machen, 192, Berkeley, Calif., 10.

DETROIT — George Chuvalo, 210, Toronto, Canada, stopped Boston Jacobs, 186, New York, 3, heavyweights.

WALPOLE, Mass. — Joe DeNucci, 185, Newton, Mass., knocked out Felix Viera, 173, Argentina, 1.

PORTLAND, Ore. — Pete Gonzalez, Portland, stopped Manuel Villanueva, Oakland, Calif., 1, featherweights.

LAS VEGAS, Nev. — Gene (Honeybear) Bryant, 158, Henderson, Nev., outpointed Jesse Armentes, 161, Las Mochis, Mex., 10.

## Most Bowl Teams Have Been Picked

by THE ASSOCIATED PRESS  
The South, a reluctant bystander at last Saturday's Poll Bowl, has recouped, as expected, by grabbing the lion's share of college football's post-season prizes.

Five teams from the rugged Southeastern Conference and two powerful Dixie Independents accepted bowl bids Monday as all but five berths in the eight major holiday attractions were filled.

This weekend, two Southwest Conference schools are expected to join the field, giving the southland at least nine of the 16 bowl spots.

Alabama, Mississippi, Georgia, Florida and Tennessee — all of the SEC — and independents Georgia Tech and Miami nalled bowl assignments Monday while the Pacific 8 Conference pulled a mild surprise by selecting Southern California as the host team in the Rose Bowl.

Purdue and Syracuse had been named to the Rose and Gator Bowls, respectively, over the weekend.

The top game should be the Sugar Bowl confrontation between third-ranked Alabama and fourth-ranked Nebraska.

If Alabama sidesteps an upset in its remaining two regular-season games and the Cornhuskers don't stumble against Oklahoma in their Thanksgiving Day wind-up, the New Orleans classic will offer the only pairings of perfect-record teams.

The game is a rematch of Alabama's 39-28 Orange Bowl triumph over Nebraska last New Year's night.

Georgia Tech, only other unbeaten and untied major team, meets Florida in the Orange Bowl at Miami the night of Jan. 2 after Southern California, the Pacific 8 king, and Purdue, the Big Ten runner-up, tangle in the Rose Bowl at Pasadena, Calif.

If Southern Methodist takes the Southwest Conference title by beating Texas Christian Saturday, the Mustangs will entertain Georgia in the Cotton Bowl at Dallas on Dec. 31. Tennessee takes on Syracuse in the Gator Bowl at Jacksonville, Fla., the same day.

Mississippi goes to the Bluebonnet Bowl at Houston on Dec. 17, where it probably will run into Arkansas of the SWC. Miami has filled half the bill at the Dec. 10 Liberty Bowl at Memphis. Berths in the Sun Bowl at El Paso, Tex., Dec. 24, are still wide open, with 12 schools in the running.

Southern California's nomination as the West Coast's Rose Bowl representative raised a few eyebrows. UCLA, which beat the Trojans last Saturday and finished one-half game behind them in Pacific 8 play, had been expected to get the call.

## Warrior Star Top Scorer

NEW YORK (AP) — Rick Barry of San Francisco, who continues as top scorer, has taken over as free throw percentage leader in the National Basketball Association.

Barry has scored 683 points for a 37.2 average to 472 points and a 31.5 average for Cincinnati's Oscar Robertson in games through last Sunday, according to league statistics released today. The Warriors' star leads in free throw percentage with .881 and is eighth in field goal percentage with a .504 mark.

The Thanksgiving Day special on NBC television starting at 3 p.m., EST, matches Eastern Division leading Buffalo and Oakland, runner-up to Kansas

## Hogs Biding Time in Bowl Picture

By ED SHEARER

Associated Press Writer  
Arkansas is biding its time, Arkansas State has its fingers crossed and Arkansas A&M has departed for the Space Bowl in Huntsville, Ala.

That, in a nutshell, is the college football bowl situation in the state.

The Razorbacks, stunned by Texas Tech last Saturday, can only sit idly by and await the outcome of Saturday's clash at Fort Worth between Southern Methodist and Texas Christian.

Arkansas State, which defied the odds by compiling a 7-2 record in a rebuilding year, is hoping to land a spot in the Pecan Bowl today.

And, Arkansas A&M, one of the tri-champions of the Arkansas Intercollegiate Conference, left Monticello this morning for its Thanksgiving Day battle with Jacksonville (Ala.) State.

Everything was in order for Arkansas to accept a Cotton Bowl invitation at Lubbock Saturday but the Red Raiders shocked the football world with a 21-16 conquest of the Porks.

The defeat left SMU needing only a tie or victory over TCU to win the Southwest Conference title and the league's host spot in the Cotton Bowl.

The situation left Arkansas' hands virtually tied since conference rules stipulate that the champion represents the league in the Dallas game. Arkansas could still get the bid if TCU upsets SMU.

Therefore the Porks reportedly were turned aside by the Gator Bowl group that did not want to wait until Saturday to select its opponent for Syracuse.

Three other bowls also have expressed an interest in the Porks — the Bluebonnet at Houston, the Sun at El Paso and the Liberty at Memphis.

Arkansas reportedly has declined any invitation to the Sun Bowl and the players reportedly voted Monday to accept a bid, if it came, to meet old rival Mississippi in the Bluebonnet.

It is doubtful that Arkansas would accept a Liberty Bowl bid to face Miami of Florida since that game is set for Dec. 10.

Meanwhile the Abilene Chamber of Commerce said Arkansas State and the University of North Dakota were being considered for the vacant spot in the Dec. 10 Pecan Bowl at Abilene, Tex.

Parsons College of Iowa, sporting an 8-1 record, accepted a bid to the bowl Monday. Officials said the second team would be named today.

Coch Bennie Ellender's Indians won their first five games before losing to Lamar Tech. The Tribe later lost to Arlington State as injuries took their toll in the last half of the season.

Using a number of freshmen and sophomores, the Tribe came a long way during the season, a credit, says Ellender, to a fine job by his assistant coaches.

"We were very pleased," said Ellender. "We felt like we came a long way."

Ellender said he did not know who would decide to accept a Pecan Bowl bid if it came, but that it possibly would be left up to the school's athletic council.

Arkansas A&M left by two chartered buses this morning for Huntsville where they will meet one of their toughest challenges of the year.

Jacksonville defeated Chattanooga 17-10 and the Tennessee crew gave the University of Tennessee a tough task for three quarters.

Jacksonville, like A&M, has a 7-2 record and also won its conference.

"They have a fine team, one of the finest passing teams I've seen this year," said A&M Coach Bill Calaway.

Calaway said Jacksonville also has an outstanding running back, a sound defense and a strong kicking game.

Calaway, in his first year at A&M, said he was extremely pleased with his team's effort in the AIC race. "We feel they gave us a real fine effort."

**Tangerine Bowl Picks Teams**  
CAMBRIDGE, Mass. (AP) — Westchester, Pa., State College has won a place in the Tangerine Bowl football game Dec. 10 opposing Morgan State College of Baltimore.

Ross Smith, athletic director at MIT and chairman of the NCAA College Division Football Committee, announced selection of Westchester Monday night. Morgan was chosen last week.

## Grade School Football Has a Good Year

Grade School Football play ended Saturday night at Legion Field with an all out effort by each of the four elementary teams.

Roy Anderson and James Motor Co. started things off with an excellent display of rough and tumble football in what anyone could term as a 100 per cent effort by both teams. James Motor prevailed in the end with a 13 to 7 victory on the strength of one arm that tripped up a Red end on his way to a big TD, after a beautiful pass play.

Then Hope Auto Co. and Young Chevrolet put on a hitting display that any football fan had to enjoy. Hope Auto came into the game with a 1 game lead over the Chevrolet team. The Ford team stuck to their bread and butter play, the power sweep out of the power information and piled up their usual big yardage rushing. The Gold's dug in tough when backed up against their own goal and stopped the Whites when it had to be done, then used the quarterback option to bang away for short yardage and the first downs and pulled out a 13 to 7 win that tied them for the league lead. It looked like a sure tie once when the Ford team's determined little quarterback returned a kickoff back to the Chevrolet 20 yd. line.

In summarizing this season's play, it's only amazing what the coaches have taught these youngsters in the short periods that they have to work with them. We saw the power sweep with blocking to equal any high school team, the quarterback option and pitch out with all the deception of the big boys and the inside and outside reverse and the counterplay looked to good to believe for Grade School kids. And as for the hitting, you didn't have to see that, you could hear it. There were no "little" boys because what they lacked in size was well offset by desire. These kids pursuit and gang tackling left little to be desired.

Much credit goes to Irvin Townsend and George Livley, who brought a very inexperienced Roy Anderson crew from disorganization into a fine little football machine. You couldn't believe it was the same team after the middle of the season. They were nobody's soft touch. And to Wesley Huddleston and Bobby Joe Lee's Young Chevy team, who came back after two initial losses to tie for the League title. They made the most of every play they had as their record shows.

Then A. J. Rhodes and Danny Joyce who took a group of little fellows and taught them to block and tackle with the big ones. Their James Motor team was consistent from the first game and the name of the Blue team sounded big all season. They finished only one game out of first place.

Finally Roger Case and Olen Overturn's Hope Auto team that demolished the rest of the league for the first round of play with excellent power blocking and a head rattling defense. The White team never ceased to amaze the fans with their precision blocking and the moves of their talented backs. They were the team to beat all year.

All in all, we saw a group of kids, this year, that wanted to play, and a group of coaches that were dedicated to helping them. We were to someone when this group gets into Senior High.

Thanks again to the players, coaches and fans for making this an outstanding Grade School Season.

**Player Hurt, Out 10 days**  
TORONTO (AP) — Defense-man Bobby Baum of the Toronto Maple Leafs, injured in Sunday's 2-2 tie with Chicago Black Hawks, will be out of the National Hockey League club's line-up for at least 10 days.

## Basketball Season Opens Tonight

LARRY DON WRIGHT

HOPE STAR SPORTSWRITER  
The 1966-67 basketball schedule will get into full swing tonight as all five Hope teams will see action for the first time this season.

The junior and senior boys' teams will travel to Waldo to begin their season against the always powerful Class B Bulldogs.

Both teams are starting this year with new head coaches. The Bobcats are now under the direction of Coach Joe Austin who came to Hope over the summer to fill the vacancy left by Coach Billy Mitchell, Bobcat coach for over eight years.

Coach Austin comes to Hope from a similar position in Lockesburg.

The Bobkittens are coached by Leon Reeder, who came to Hope High School this year from Guernsey.

With only two letterman returning from last year's squad the Bobcats will find extra depth and experience from several Guernsey transfers. Lettermen from last season are Stan Parris and Stan Reyenga. Parris was a starter.

For the Cats who began regular practice sessions only ten days ago, Waldo may prove to be a pretty steep order. This is in view of the fact that the Bulldogs do not have a football program and therefore have already been able to devote about two months to basketball.

The junior and senior girls' teams and the B-boys will also play for the first time tonight. They play at Springfield.

Both girls' teams are instructed by Mrs. Charlotte Gibson, and should prove to be strong contenders for the championships in their districts due to the consolidation of schools and the additions of several but experienced players.

The games at Waldo begin at 6:30 p.m., with the Kittens leading off the double header.

## Arkansans Leading in Statistics

DALLAS, Tex. (AP) — Arkansas' Martine Bercher and Gary Adams, two of the Southwest Conference's top defensive backs, hold the lead today in two categories in the league statistics.

Bercher leads in punt returns with 24 for 375 yards, more than 100 yards ahead of runner-up Chuck Latourette of Rice who closes his season against Baylor Saturday.

Adams, a sophomore, leads in pass interceptions with seven for 93 yards. Frank Horak of UCU has six for 14 yards with one game remaining.

David Dickey, the Razorbacks' sophomore tailback, and Jerry Leivas, SMU's sophomore end, share the conference scoring lead with 48 points.

Chris Gilbert of Texas is the rushing leader with 943 yards and Terry Southall of Baylor the passing leader (1,742 yards) and total offense leader (1,740). Southall has been stopped for minus two yards in rushing.

Leivas sets the pace in kickoff returns with 15 for 393 yards and Texas Tech's Larry Gilbert is the pass reception leader with 52 for 767 yards.

SMU leads in total offense with a 319.1 average per game and Arkansas in defense. The Razorbacks have given up 250.4 yards per game.

## Chuvalo and Terrell in Title Fight?

By WHITEY SAWYER

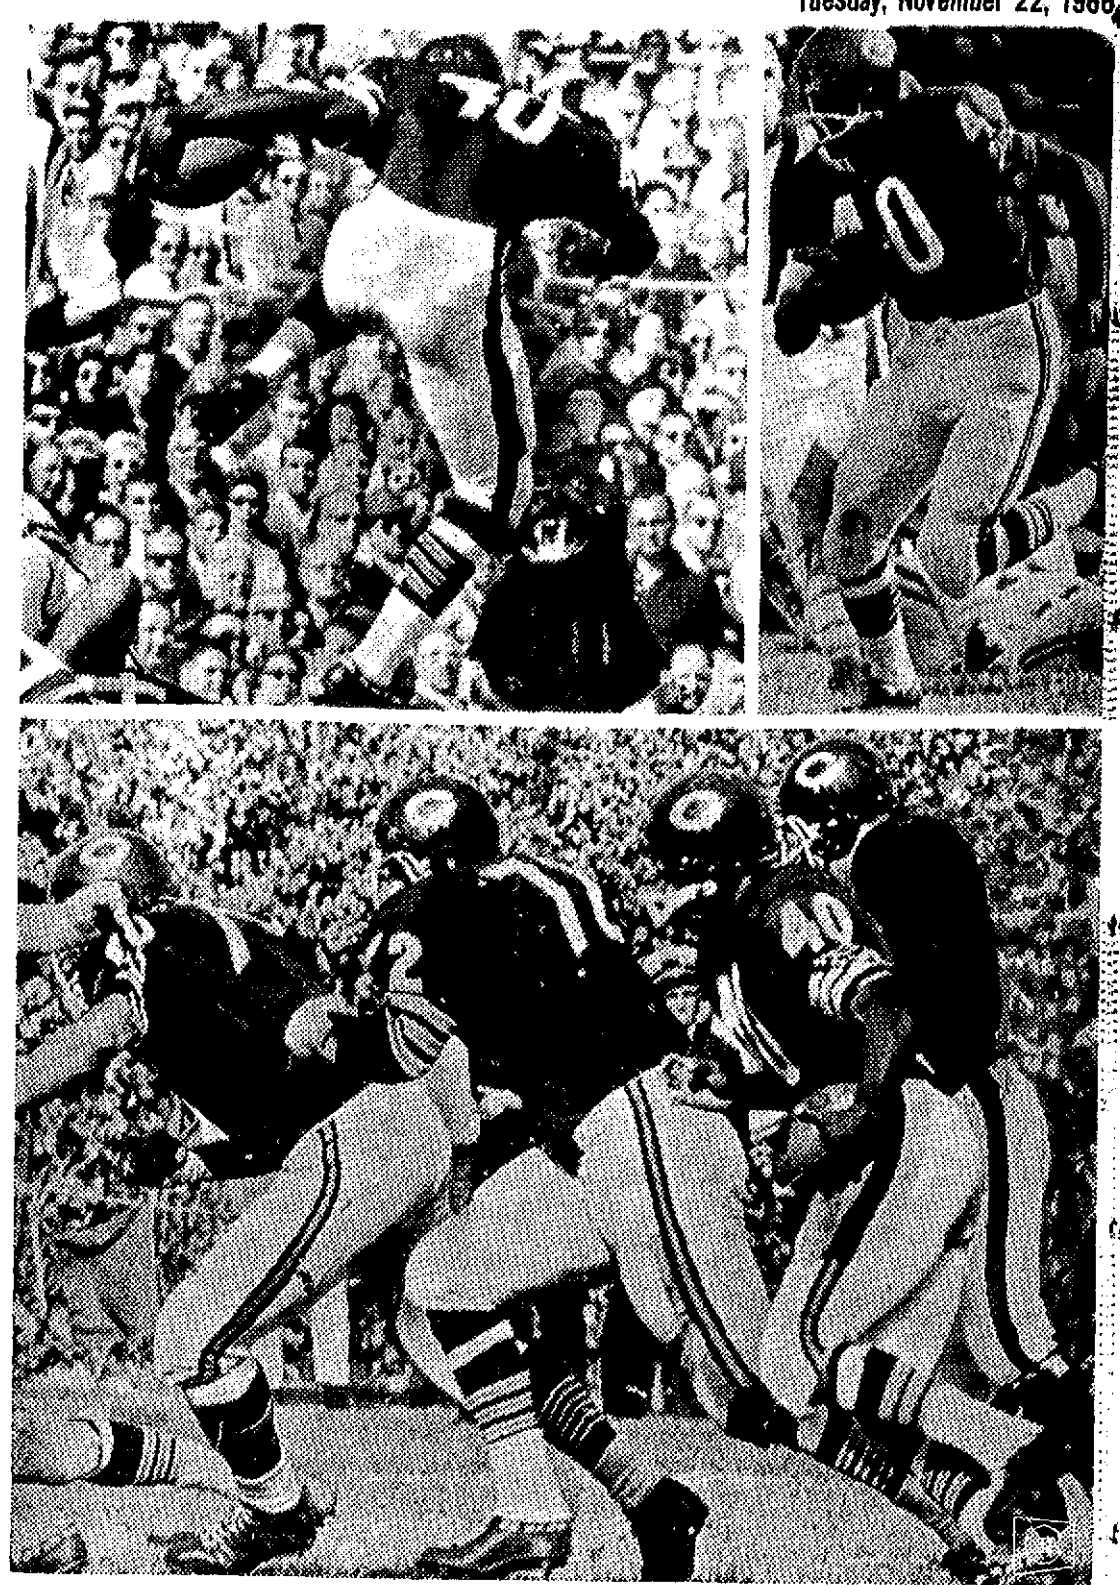

DETROIT (AP) — Would you believe George Chuvalo against Ernie Terrell for the heavyweight championship of the world?

The way they were talking, and acting, around Cobo Arena Monday night that's the way Chuvalo and Terrell think it might be next year.

Terrell will fight Cassius Clay for the title next year. "The date that they have been talking about is Feb. 6," Terrell said, "but that isn't official until they decide on a site and the contracts are drawn."

He said an offer had been made to hold the fight in Detroit and he was impressed, "because they were talking with money and that speaks loud and clear."

Chuvalo ran his record to 33-11-2 Monday night by pouncing out a third-round technical

GALE SAYERS' many movements in the football wars of the Chicago Bears take him "over the top" (upper left) and around the flank (upper right). He really gets military (bottom) following blockers in what resembles the Marine Corps charge to plant Old Glory atop Iwo Jima.

## Kentucky Cagers Are Favorites

NEW YORK (AP) — Kentucky, runner-up to Texas Western for the national collegiate basketball championship last season, once more is favored to win the Southeastern Conference in the college dribble season opening next week.

Western Kentucky and Cincinnati similarly are favored to repeat in the Ohio Valley and Missouri Valley Conferences, but Michigan and Kansas may be ousted as champions in the Big Ten and the Big Eight, respectively.

Michigan State and Illinois are expected to be the main contenders in the Big Ten. Nebraska is favored in the Big Eight. Elsewhere in the basketball talent-rich Midwest, Miami of Ohio likely will retain the Mid-American crown with Chicago Loyola and Oklahoma City again the best of the independents.

Adolph Rupp, Kentucky coach, has warned, "We aren't going to be as good as we were last year" when his Wildcats won 27 and lost only twice.

Still Kentucky has lost only Tom Kron and Larry Conley from last season. All-America Louie Dampier is back along with Pat Riley, Thad Jaracz, Bob Tallent, Tommy Porter and Cliff Berger. That means Vanderbilt, Florida, Tennessee and Mississippi State, expected to be strong contenders in the SEC, again will find Kentucky tough to handle.

Western Kentucky, which finished 10th in the final Associated Press poll last season, has back Clem Haskins and Dwight Smith and is expected to duplicate its 25-3 record of a year ago. Cincinnati has back John Howard, Dean Foster and Mike Rolf giving the Bearcats an edge over Louisville, Bradley, Wichita and St. Louis in the Missouri Valley.

Michigan State, second to Michigan by only one game last year, has back Matt Aitch and John Bailey.

Nebraska, the only team to beat Kansas in league play last year, again will have Nate Branch, Tom Baack and Stuart Lantz.

knockout over Boston Jacobs of New York, The Canadian champion outweighed his opponent 210 to 186 and completely outclassed him.

Chuvalo's handlers contend the Canadian is much improved since he dropped a 15-round decision to Clay. They claim the winner of the Terrell-Clay fight should give Chuvalo another chance at the title.

According to Terrell, he's going to be the winner. "I see an incomplete fighter (in Clay)," he said. "He's fought a lot of washed up fighters, but he can't handle a good, young man."

## Lindgren in Another Record Run

By JIM VAN VALKENBURG  
LAWRENCE, Kan. (AP) —

Little Gerry Lindgren, Washington State's 20-year-old Olympian, won the 28th NCAA Cross Country Championships in course record time Monday, then scoffed at the idea he might burn himself out at an early age.

"Your mental attitude is everything," Lindgren said. "If you still enjoy the challenge, you can go on. I don't see how you can set a certain age for a physical peak."

Lindgren's time of 29:01.4 on the hilly, six-mile Kansas course smashed the course record set by John Lawson of Kansas last year by a whopping 22.6 seconds. Tracy Smith of Oregon State was 125 yards back in 29:11.

Villanova won its first team championship with 79 points. Villanova, coached by Jumbo Jim Elliott, won the ICAA crown at New York a week earlier.

Kansas State was second with 155 points.

Lindgren, just 120 pounds and 5-foot-6, missed two weeks of training with two ankle sprains and was beaten by Smith just a week earlier in the league meet.

But he worked hard last week and had no ankle trouble. He sprinted to the front quickly and led all the way.

## KC Holding Edge in Offense

NEW YORK (AP) — Kansas City, doing most of its traveling along the ground, continues to hold a wide edge in total offense in the American Football League.

Statistics released by the AFL today show the Chiefs averaging 361.1 yards per game—a shade less than 33 yards per game more than second place Buffalo. Veteran Bert Coan and rookie Mike Garrett carry the brunt of the Kansas City running game, which is averaging 151.3 yards per game—almost 14 more than second-place Boston.

Oakland leads the league in total defense, yielding 250.3 yards per game, 1.4 yards less than New York.

## Pro Cagers Have Plan of Expansion

By ED SCHUYLER JR.  
NEW YORK (AP) — There will be 12 teams in the National Basketball Association next season and 18 in 1970-71.

The expansion move was dictated by a "heightened" interest from cities desiring an NBA franchise and a professional market survey that revealed growing potential in many new cities for major league basketball. Commissioner Walter Kennedy said Monday at the league's fall meeting.

The NBA, which expanded to 10 teams this season with the addition of Chicago, will add two more clubs in 1967-68 and two more for each of three seasons after that.

Kennedy listed, in alphabetical order, the cities under consideration for franchises:

Atlanta; Cleveland; Dallas; Fort Worth, Tex.; Houston; Kansas City; Minneapolis; Minn.; New Orleans, La.; Phoenix, Ariz.; Pittsburgh; San Diego, Calif.; Seattle, Wash., and Washington.

"Under primary consideration for the first two franchises are Seattle, Pittsburgh, Cleveland and San Diego," Kennedy said.

In other action Monday, the playoff system was revised.

The first four teams in each of the five-club divisions will be eligible for the playoffs, with the first place team playing the third place team and the second meeting the fourth in best-of-5 series. The survivors will then meet in best-of-7 sets, and the division winners will play a best-of-7 for the league championship.

Before the addition of a 10th team, the first three finishers in each division made the playoffs.

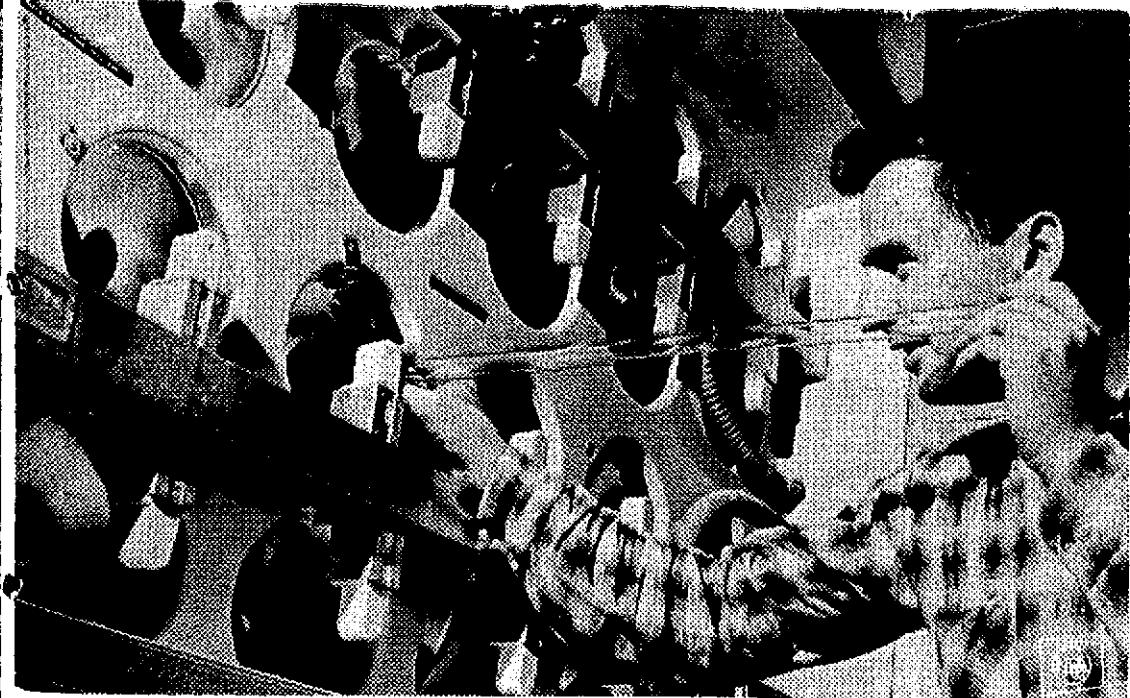

A SLOPPY MOVE  
EAST LANSING, Mich. (AP) — During a staff meeting, Michigan State football coach Duffy Daugherty knocked over a cup of coffee on a table full of play diagrams.

"Think nothing of it," said Daugherty. "We've got to learn to play on a wet field anyway."

SWISHER SWEETS  
by KING EDWARD

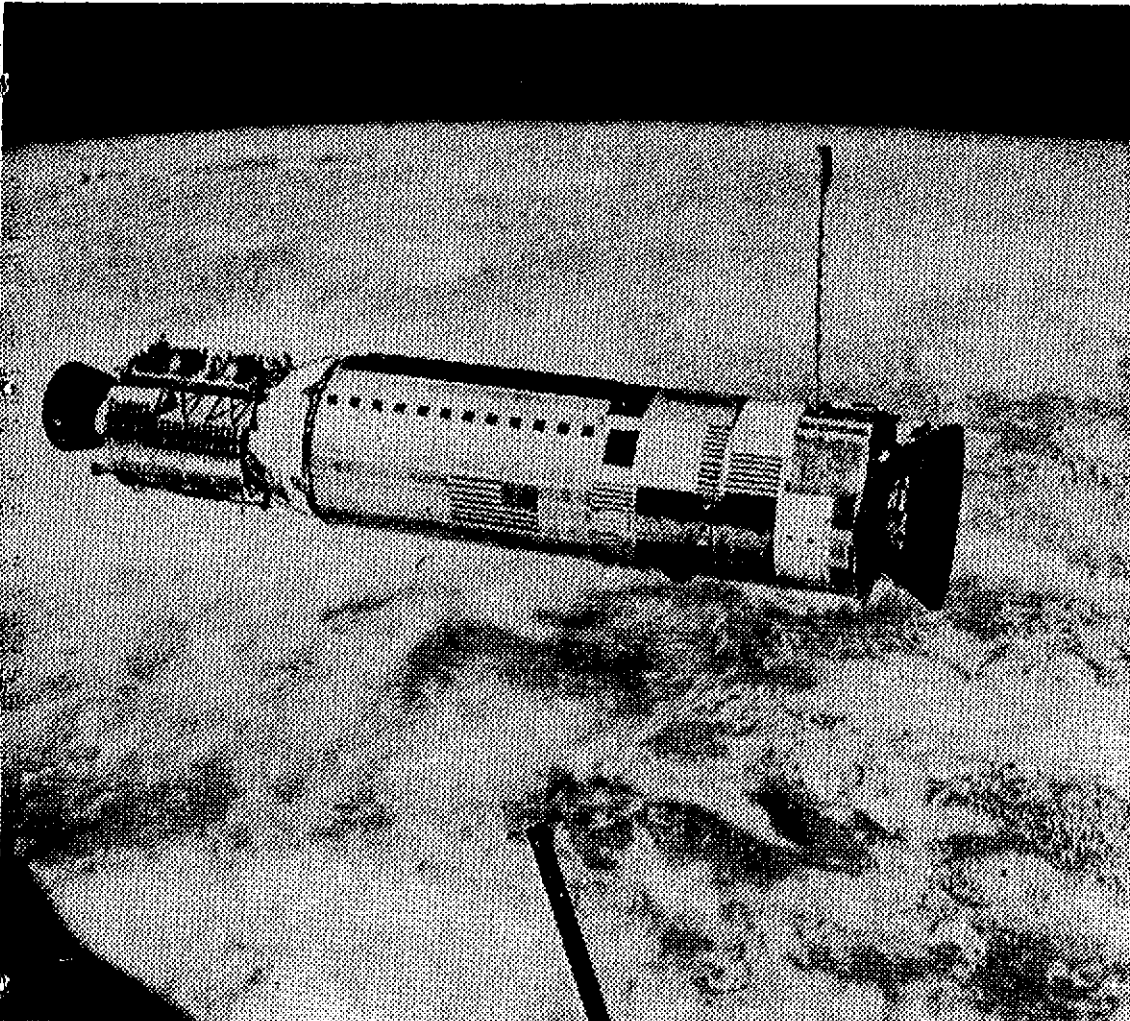

**AIR GETS 'SCRUBBED'** in Minneapolis' North Memorial hospital, which claims the cleanest air in the country. With air pollution a growing problem in the U.S., this system by Honeywell, Inc., utilizes special filters, plus ultraviolet lamps to kill germs and activated charcoal to eliminate odors. Corkscrew-shaped baffles swirl air around the tubes for a complete ultraviolet cleaning. One of the lamps is being installed here by an attendant.

**BUMPY RIDE** to nowhere in this hydraulic road simulator in Detroit is replacing the thousands of miles of test driving of a fully-assembled automobile by manufacturers. Test runs, usually riderless, consist of feeding magnetic tape recordings of road conditions into hydraulic ram exciters, which jostle each individual wheel point as if a car were actually on the road. The tests, at the Rarish Division of the Dana Corp., permit fatigue studies of parts before they reach the production line.

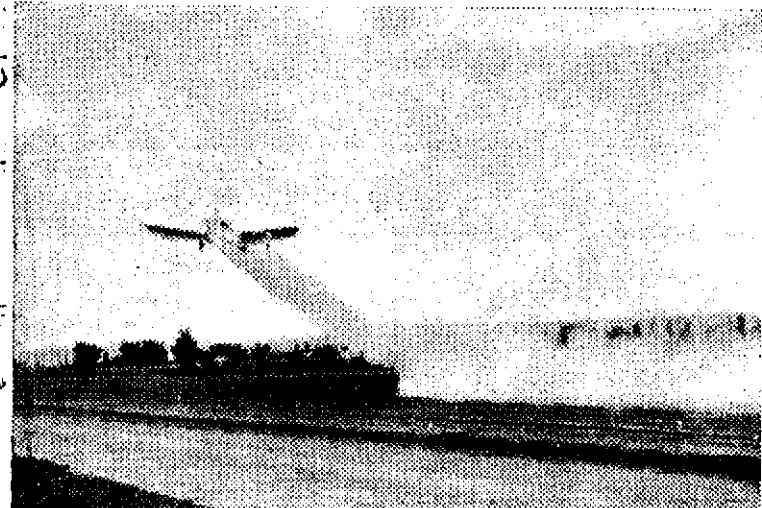

**ALUMINUM BEAMS** are in store for the new North-east Corridor high-speed rail line, scheduled to open next year between New York and Boston. This 53-foot member, fabricated by Alcoa, is being lowered near the frame of one of the six turbine-powered passenger cars being built for the run, in which trains will reach 160 m.p.h.

**THIS IS THE VIEW** of the Agena target vehicle as seen from Gemini-12 by astronauts Jim Lovell and Edwin Aldrin during their recent successful mission. The astronauts were unable to use the Agena for a ride to a high orbit as had been planned because of a possible malfunction in the large engine at left.

## FIRST MANNED ROCKET FLIGHT

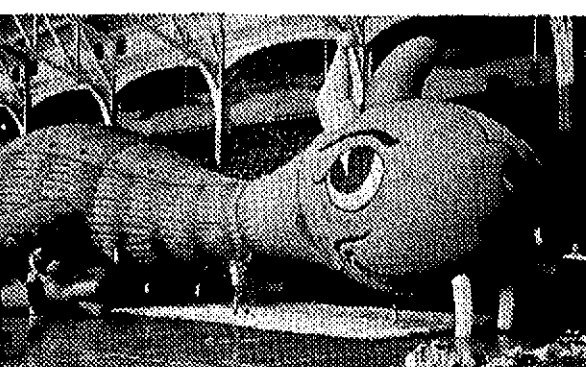

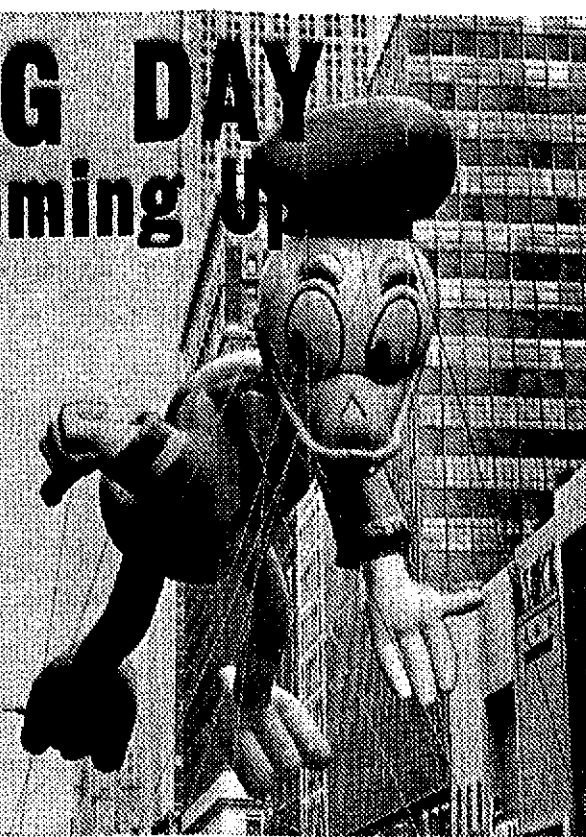

The quarter century between the picture at left and the one at right spans the history of manned rocket flight to date. Not the Soviet cosmonaut Yuri Gagarin but a U.S. Army Air Corps pilot is on record as the first man to take to the air with rocket assistance. It was in August, 1941, that Capt. Homer A. Boushey took off in a plane fitted with Jet Assist Take Off units to determine if military aircraft could use rockets to get into the air faster from short runways. It was a first step leading to advanced JATO units and helping to pave the way for today's rocket flights that are rapidly putting the moon and planets within man's reach.

Capt. Homer Boushey takes off on rocket power from March Field, Calif. His solid rocket units put out 28 pounds of thrust for 12 seconds. Take-off speed was about 50 m.p.h. The successful JATO tests took place Aug. 6-23, 1941.

Fred S. Miller, rocket engine pioneer with Aerojet-General Corp., holds a rocket unit used in the 1941 tests. He's framed by the huge Titan rockets.

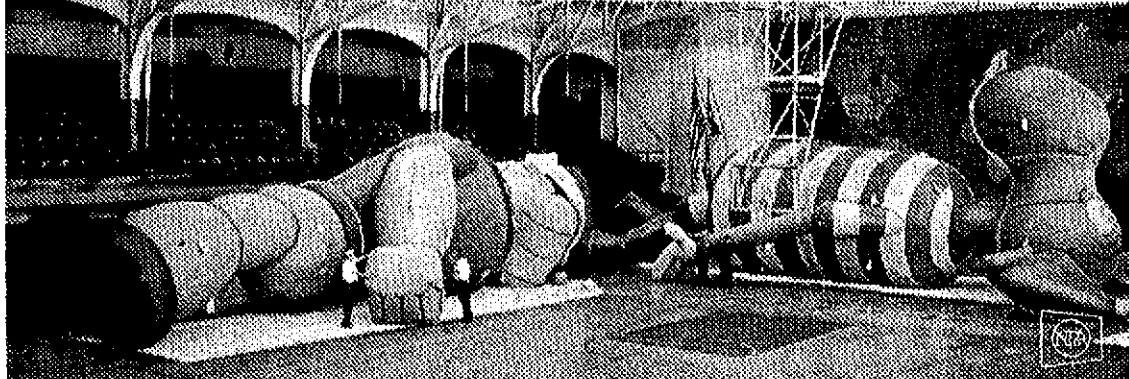

**A saggin' dragon** gets a fresh coat of paint. Each balloon takes up to eight months to design and build. Made of superthin rubberized nylon, they are not one big gasbag, but a number of compartments—arms, legs, ears, nose—inflated separately.

Thanksgiving in New York wouldn't be the same without the annual big parade. And the parade wouldn't be the same without the giant comic character balloons that have been delighting kids and adults for 36 years. With the big day coming up once more, nine balloons are being readied for their once-a-year appearance. Two are brand new, identities to remain secret until Nov. 24.

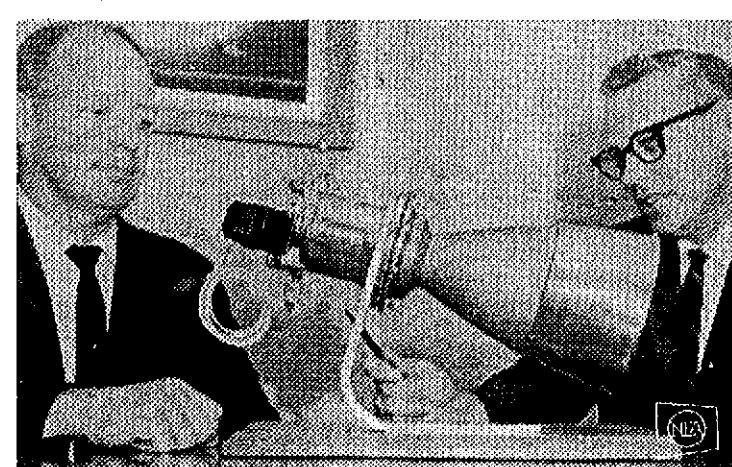

**Donald Duck** floats through New York's canyons, left, on Thanksgiving Day. The balloons—up to six stories high, weighing 250 pounds and filled with helium—are controlled by tethers held by 25 to 45 men as the annual parade, staged by Macy's department store, moves down Broadway. Another view of Donald, above, happily at rest in his off-season quarters, the Akron, Ohio, plant of Goodyear, maker of the balloons.

**Popeye and Bullwinkle J. Moose** go through inflation tests. Characters from popular comic strips have been favorite subjects since the balloons made their first appearance in the 1930 parade. Although much sought after for other promotional and pageant appearances, they are on public display only once each year—on Thanksgiving Day in New York.

**FAMED ARTIST** Salvador Dali strikes a pose beside his latest work in Paris. The bust, which Dali says is of the late John F. Kennedy, is made of paper clips stuck together with plaster.

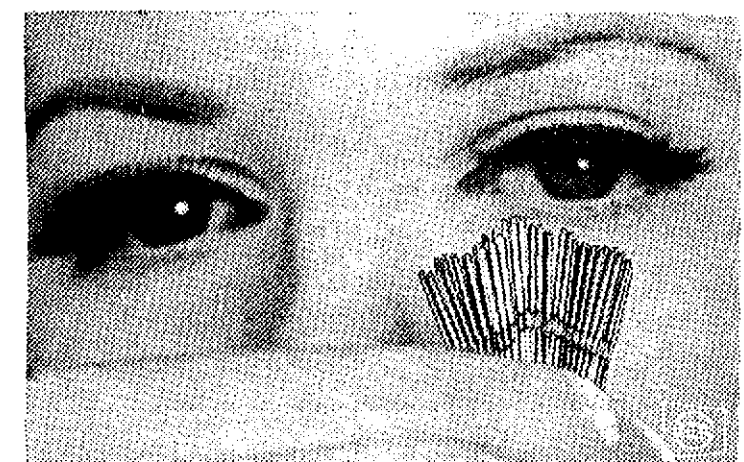

**MIGHTY MIDGET**, this small rocket engine is intended for a multipurpose role on space missions. The engine, being examined by program managers William Brown, left, and Jim Jackson at NASA's Marshall Space Flight Center, Huntsville, Ala., is now being ground tested. It produces up to 100 pounds of thrust. Operating individually or in clusters, it is expected to perform a variety of steering and maneuvering tasks on spacecraft.

THE ZINZIN ROAD. By Fletcher Knebel. Doubleday. \$5.95.  
In the West African country of Kalya, run by a black dictator whom everyone calls Old Number One, Peace Corps volunteers are having a rough time.

This is particularly true in an outcountry town called Zinzin, where a protégé of the dictator - known among the volunteers as Genghis Khan - is an accomplished grafter, sabotaging the school in which several of the volunteers teach. They have grown pretty disillusioned with their lot.

Equally disillusioned is Lew (Red) Corlegh, a truck driver who serves as a Corps courier. He discovers that a handful of native dissidents are trying to combat Genghis, and indirectly, Old Number One. Almost before he knows it, Lew is "helping" the underground, known as The Forge. At first he merely carries messages, but soon he and several other volunteers are more deeply involved.

This violates a prime principle of the Corps that volunteers must never mix in local politics. But some of them justify their acts on the ground they are helping the school, not politics. The distinction is hard to make; and as one of them observes, even their proper job of teaching the natives is inherently a revolutionary step.

The Zinzin affair eventually stirs up a storm in the State Department, the Corps headquarters; with the American ambassador to Kalya, and with a CIA agent who thinks a couple of the native members of The Forge have a pinkish background.

The Ambassador is in the middle. He knows very well that Old Number One and his gang are swindling and oppressing the native tribes, but Washington is convinced the dictator is pro-American and anti-Communist, and wants to keep him in power.

Knebel is the author of "Night of Camp David" and co-author of "Seven Days in May," so you know how adept he is at high-level melodrama saturated with plausible atmosphere. The fact that he just isn't a very good novelist doesn't matter very much. He stirs up an action thriller with political overtones and makes it all very interesting. Miles A. Smith

**QUICK QUIZ**

Q—Is it true that flocks of gulls saved the Mormon settlers from starvation in Utah?  
A—Thousands of California gulls, suddenly gathering to feed on the armies of crickets devouring the Mormon crops, are said to have saved the settlers from starvation. In appreciation, the Mormons erected, in Salt Lake City, the famous monument to the gulls.

Q—How many voyages did Christopher Columbus make to America?  
A—Four—1492, 1493, 1498 and 1502.

**THE DOCTOR'S MAILBAG**  
Colitis Victims Can Build Tolerance for Many Foods  
By WAYNE G. BRANDSTADT, M.D.  
Newspaper Enterprise Assn.

Q—Is an irritated or nervous colon caused chiefly by laxatives? Is there any fever with it?

A—Although prolonged use of laxatives is a common cause of colitis, it may also be caused by getting too much roughage in your diet, emotional upsets, food allergy or chilling the abdomen. It is not associated with fever. Diarrhea with fever may be caused by salmonella infections including typhoid and various types of dysentery.

Q—Are sudden uncontrollable bowel movements common in people who suffer from spastic colon or colitis of any type? Can anything be done for this?

A—Severe attacks of spastic colon or colitis are often associated with a sudden powerful urge to empty the bowel. Although control rather than cure is possible, it cannot be achieved overnight. It often requires a careful study by a gastroenterologist to determine the underlying cause and to prescribe a course of treatment that includes medicine, diet and hygienic living.

Q—After a woman gets her mucous colitis under control with a bland diet and drugs, can she eat whatever she wishes or should she avoid certain foods?

A—Anyone who has suffered from mucous colitis can get a relapse by eating a large amount of roughage. You should get, as nearly as possible, the same amount of roughage every day, making

400,000 WAITING  
BOMBAY, India (AP) — A telephone official told newsmen 300,000 persons were on the waiting list for telephones five years ago. The list had grown to 400,000 when India began its new five-year economic development plan in 1966, he said.

minor adjustments in the amount to keep your stools firm but not hard. After two or three years of good control you may find that your tolerance for vegetables and fruit will increase, but it is unwise for anyone to go overboard in eating these foods just because they are in season.

Q—I have frequent bouts of colitis for which I take sulfaquinolone. This helps me, but will it damage my kidneys?

A—This powerful antibacterial agent is safe when taken under medical supervision. Too large a dose may cause a variety of harmful reactions including damage to the kidneys, liver and blood. Incidentally, this remedy is not generally prescribed for colitis.

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters he will answer letters of general interest in future columns.

WIN AT BRIDGE

Hand Wins 1931 Vanderbilt Cup

Fred Karpin, the author of "Psychological Strategy in Bridge" shows a hand which was largely responsible for the team of P. Hal Sims, Willard S. Karn, David Burnstine and Oswald Jacoby winning the 1931 Vanderbilt Cup.

When Sims and Karn held the North-South cards West overcalled with one heart. North bid a spade and East doubled. Sims, sitting South, ran out to one no-trump. Karn, North, bid two clubs which became the final contract. Willard played the hand beautifully and managed to make two clubs for plus 40. These were no partscore bonuses in those days.

The bidding shown in the box took place at the other table. Oswald Jacoby sat West and his raise to two hearts was a classic example of the preemptive jump overcall which he had just invented. You can't blame North for going to two spades. Dave Burnstine sitting East passed. He knew that two spades was not going to be the final contract. North and South were already in trouble and Dave

wanted them to get into as much more trouble as possible, so he made it a point not to indicate any strength. Of course, when North-South reached three no-trump he doubled.

Jacoby opened the four of spades. Dave returned the queen of hearts. South played the hand slowly and carefully but the best he could do was to take one heart, two diamonds and three clubs. The three-trick set netted 1,000 since the penalties then were larger than they are now. The team gain on the hand was 1,040 points and because they won this final match by only 770 points, it more than made up the margin of victory.

## THE FAMILY LAWYER

### Competitor Next Door

How much will it hurt a candy store to have a drug store move in next door? How seriously is a fabrics merchant threatened by a nearby ready to wear shop?

Such questions are receiving fresh attention as a result of the rise of the modern shopping center. It happens this way.

A prospective tenant, knowing that the landlord owns all the adjacent stores, wants to be protected against competition. Therefore, he insists on a protection clause in his lease. By its terms the landlord agrees not to lease another store, later on, to someone in a similar line of business.

Under this arrangement, how much protection does the tenant really have? A great deal depends on the exact wording of the lease.

A baker was held unable to prevent his landlord from leasing space to a supermarket. In this case, the baker's lease protected him only against competitors whose "principal business" was baked goods. The supermarket handled baked goods merely as a sideline, not as its principal business.

But a paint dealer succeeded in keeping out a hardware store, because his lease protected him in so many words against any other tenant who sold paint.

Besides the language of the lease, a court will also consider the nature of the competitive threat.

Thus, a luncheonette was denied protection against a gourmet shop, even though they both sold food. The court pointed out that the gourmet shop, whose products were not eaten on the premises, was catering to a different kind of consumer need.

What about the legality of these protection clauses? Aren't they a form of restraint of trade? Such an objection has been raised, but with little success.

For restraint of trade is illegal only when it goes beyond reasonable limits. Protective arrangements within a shopping center are usually held reasonable, because they apply only to a relatively small area, for a relatively short time.

And courts have recognized that some degree of harmony, among merchants who are so closely associated, is a plain economic necessity.

### A NEW PROGRAM BEGINS

NEW YORK (AP) — A resident theater management training program is being started by the American National Theater and Academy.

Harlan P. Kleiman, in charge of the program, said that wide interest in such instruction has prompted expansion of enrollment in the two-week course from 25 to 40 students.

## Once Again This Nation Has Escaped

By JAMES MARLOW  
AP News Analyst

WASHINGTON (AP) — Once more the country escaped in President Johnson's illness — as in the illnesses of other presidents — the kind of rumpus which could occur because the Constitution is vague on what happens when a president is too disabled to do his job.

When Johnson underwent two minor operations Wednesday, he was under an anesthetic about one hour and a half. In about four hours he was whipping back into shape. Before he went to the operating room he and Vice President Hubert H. Humphrey had an agreement that if Johnson was too disabled to carry out his job, Humphrey would have stepped in.

At best, it was only an informal arrangement, the same as Presidents Dwight D. Eisenhower and John F. Kennedy had with their vice presidents. There have been times in American history when presidents were terribly disabled but there was no arrangement for a vice president to take over.

The lack of a disability agreement spelled out by law could lead to a national crisis.

For example: What if there was a dispute between the president and his vice president over whether the president, after the vice president had stepped in for him, was still too disabled to carry out his duties? In short, what would happen if a vice president refused to stop acting as president?

Perhaps by the end of March, 1967, this problem will have been eliminated. By then three-fourths of the states — 38 out of 50 — are expected to have approved the proposed 25th amendment to the Constitution which Congress okayed July 6, 1965. So far 31 states have approved.

The Johnson-Humphrey arrangements provided that while Johnson was undergoing and recovering from surgery Humphrey, if necessary, would carry out the presidential duties until Johnson had recovered.

As of now the Constitution simply says this on presidential disability and succession: In case of presidential inability, the vice president will carry out the president's job; and Congress can provide by law for the case of removal, death, resignation or inability of president and vice president and decide who takes over as president.

Several times by law Congress has provided for the order of succession — among top government officials — to the presidency if the president dies and there is no vice president. But, while eight vice presidents were alive to take over a presidency vacated by death, seven other times vice presidents died in office. And one vice president resigned.

The proposed 25th amendment tries to prevent the nightmare which would follow if once a

# THANKSGIVING

Let us be thankful that we can learn, build, give, beautify and make more productive the American way-of-life entrusted to our keeping. Today, let us enjoy the turkey and fixin's . . . yet take the time to give a heartfelt prayer of thanks for such bounty.

A happy Thanksgiving to you all!

## What Has Thanksgiving to Say?

By DAVID POLING  
Consultant on Religion  
Newspaper Enterprise Assn.

Two years ago, Eli Goldfarb, a 77-year-old doorknocker of a Manhattan apartment building, bought a quarter-page advertisement in The New York Times.

He spent \$996, a portion of his life's savings, to print an essay entitled "Thanks." It was his way to thank God publicly for his good life in this country, for loving parents, his job, this free land filled with diverse, strange and friendly citizens. He said:

"This last year has been such a wonderful year and so I pray to God that I may never forget to thank Him each day."

That was one man's way of expressing thanks in the 20th century. But what about the place of "Thanksgiving?"

Is it lost in the preparations for Christmas or submerged in the supermarket sale of turkeys or the salad in packed with alumni pleading for a game-ending touch-down?

Thanksgiving, then, was a deep religious expression that meant unity and not division.

More than a century later the American community had experienced a different crisis. The Revolutionary War was over but trade and uncertain future had led our national government. After bitter and heated debate a new Constitution was adopted. For

more vital and enduring holidays, but the most American festival of all. For Thanksgiving may become a strong, quiet way to resolve a touchy religious issue which has unsettled our public schools and disturbed too many communities.

Thanksgiving has plenty to say to our swinging society which can be easily grounded by religious quarrels of racial skirmishes. We must learn over and over again the meaning of strength out of diversity. Otherwise this pluralistic society will neither be great nor lasting.

That first Thanksgiving of 1621 was no little fish fry with a few scrawny turkeys and some Indian corn.

Remember these Pilgrims had burned half their colony in a frightful winter of starvation and sickness. Now the harvest had come and the religious fellowship recognized a wider community. The survivors were Pilgrims, Indians, believers, nonbelievers. To enjoy a three-day banquet the natural divisions of religious doctrine, political loyalty and party spirit were blended in a human fellowship that made Thanksgiving natural.

Thanksgiving, then, was a deep religious expression that meant unity and not division.

More than a century later the American community had experienced a different crisis. The Revolutionary War was over but trade and uncertain future had led our national government. After bitter and heated debate a new Constitution was adopted. For

his dreams come true and his Thanksgiving proclamation indicated the depths of his praise to God and his thanks for the young republic that was delivered from political and social chaos.

At almost any major turn in our country's history, Thanksgiving has been the season to reflect upon the mood and hopes of the people. It has a binding quality, a healing capacity.

Lincoln did not think especially of a turkey shoot or of a New England pumpkin when he issued a call for a day of Thanksgiving in 1863. He saw the War Between the States drawing to a close. He saw an end to the terrible sword that was slaughtering the youth.

So to him, Thanksgiving was the day to proclaim a better future after a bloody past. Take any Thanksgiving season in the years of crisis and you find presidents, governors and public officials touching upon the relevant events of the hour.

Through the years, Thanksgiving has been a rallying point for all men of good will. It is a genuine holiday that united the religious community in a way which neither Christmas nor Easter can guarantee for the union services of the worship of God have a broad and generous range.

The major religious bodies, Christian and non-Christian, are able to participate in community services without sticky discussions over the sacraments or particular ritual. This season the most Ameri-

can of holidays enjoys the support of the Ethical Culture Society, the Jewish synagogue and the diocesan cathedral. Thanksgiving is uncluttered by theological bone-picking and makes possible the free expression of thanks to God in new and uncharted ways.

Thanksgiving observance has flexibility and resiliency to fit the needs and requirements of the American people. For this reason alone, it offers opportunity for the future as well as reverence for the past.

Some educators, politicians and religious leaders believe that Thanksgiving may offer a valuable clue to the future of religion in the public school. We must admit that prayer and Bible reading in the public schools have generated angry controversies and unpleasant campaigns. (The recent Dirksen "amendment" attempt indicates how final some consider the Supreme Court decision on the matter.)

The history, tradition and practical qualities of Thanksgiving may be one answer to the dilemma. By its very nature, the holiday is neutral in religion yet conscious of God's blessings to all men. There never has been an inkling of "sectarian" advantage yet the spiritual foundations are older than the Constitution, the Supreme Court and Congress itself. The New England feast of 1621 has something to say about the religious peace of 1966.

has recovered enough to take back his job, he will notify Congress. If then the vice president and a majority of those other executive officers think differently, Congress will decide.

NEW YORK (AP) — An old Japanese edict fixed "bounties" on Christians, according to a 16th Century wooden scroll possessed by the Lutheran Church in America's world-missions board.

Painted Japanese writing on the scroll offers rewards of 500 pieces of silver (\$15,000) for reporting a missionary, 300 pieces (\$9,000) for reporting a pastor or lay Christian, and 100 pieces for reporting anyone interested in Christianity.

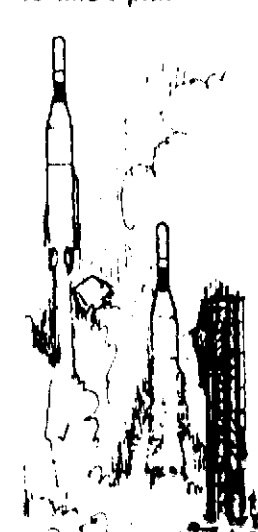

Also inscribed on the parchment: "If you conceal a Christian and he is later apprehended in some other place, the mayor of your town, together with your neighbors, will receive punishment."

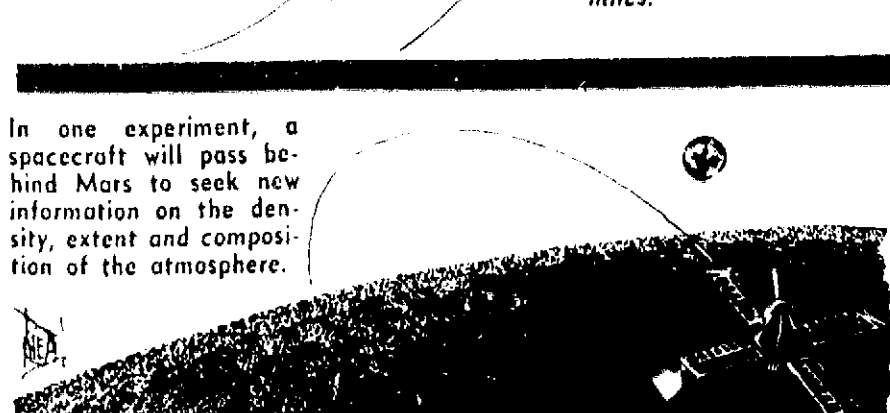

'TIN CANS,' a nickname usually reserved for Navy destroyers, became a reality in England when Dennis Mansfield created this unusual seacraft out of British-made trash cans. Mansfield, a special products division manager for an American outboard motor company, built the craft to demonstrate the ruggedness and versatility of the engine.

## MISSION TO MARS

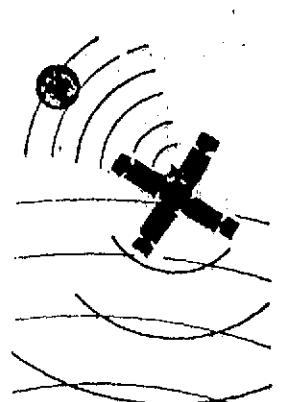

Two Mariner Mars spacecraft are scheduled for 1969 launchings from Cape Kennedy in the period from early February to mid-April.

Each Mariner will carry two television cameras to take pictures of surface features as small as 500 feet across in passes within 2,000 miles of Mars. Mariner 4's closest approach was 6,200 miles.

In one experiment, a spacecraft will pass behind Mars to seek new information on the density, extent and composition of the atmosphere.

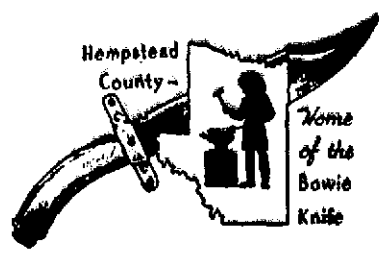

Other experiments will gather information on Martian temperatures, the landscape and data needed in planning for the landing of life-detection capsule on the planet in 1973.

The National Aeronautics and Space Administration is hoping to get closeup television pictures of Mars in 1969 10 times as detailed as those sent back by Mariner 4 in 1965. If the mission succeeds, the pictures may reveal evidence of changing shapes in the planet's craters—indicating erosion and the presence of water at some time in the past.

## First of the Common Markets Was the U.S.A.

Federic G. Donner, chairman of General Motors, made a significant point last week in his speech to the annual meeting of the Arkansas State Chamber of Commerce and Associated Industries, at Hot Springs.

Mr. Donner said that while the world's attention is focused on Europe's efforts to set up a Common Market a fact overlooked is that the common market concept originated 175 years ago in the United States.

With tariffs and other trade barriers between the states forbidden, he continued:

"Each business was able to take root and grow where conditions of supply and market offered the greatest potential. Out of this has emerged a nation wide system of interdependent business relations based on the durable foundation of economic efficiency."

Actually, of course, Europe had the American example clearly in mind when it took the initial steps right after World War II to set up its own Common Market. Differences in language and national aims and jealousies have delayed its final completion, but tariffs have been lowered or abolished, competing countries have learned to work for a common economic goal, and much of Europe's prosperity since World War II is credited to the Common Market organization.

Mr. Donner couldn't help inserting in his speech a "plug" for the motor industry, and it was justified. He said that the automobile has been a great unifying force in our country, knitting the many businesses of our nation into a closely-woven fabric of commerce and trade.

This is another aspect in which Europe has followed our lead. I might add to Mr. Donner's remarks. Before the days of the Common market most Europeans got around town and the countryside on bicycles. Today Europe has a first-class traffic jam—because of the multiplication of motor cars.

It doesn't take much imagination or undue optimism to prophesy that where neighbor nations combine efforts to work for a Common Market and prosper the threat of war is definitely reduced. For generations Germany and France were at each other's throats. Today they are working partners in the Common Market—with a financial stake that is far more effective in keeping the peace than the multi-tongued debating society sarcastically called the United Nations.

## Laid Off Auto Workers Are Paid 62%

DETROIT (AP) — Auto workers laid off in current industry cutbacks can count on receiving at least 62 per cent of their wages for up to six months.

Even after that, a man with two years' seniority could draw \$50 weekly, plus \$1.50 a week for each dependent up to four, for six more months.

These were among layoff safeguards written into current contracts in 1964 bargaining between the four top automakers and the United Auto Workers Union. Some within the UAW equate them with a guaranteed annual wage.

None of the manufacturers has indicated how many would be laid off in their inventory balancing shuffle. General Motors announced last week December and January production would be sliced 8.1 per cent.

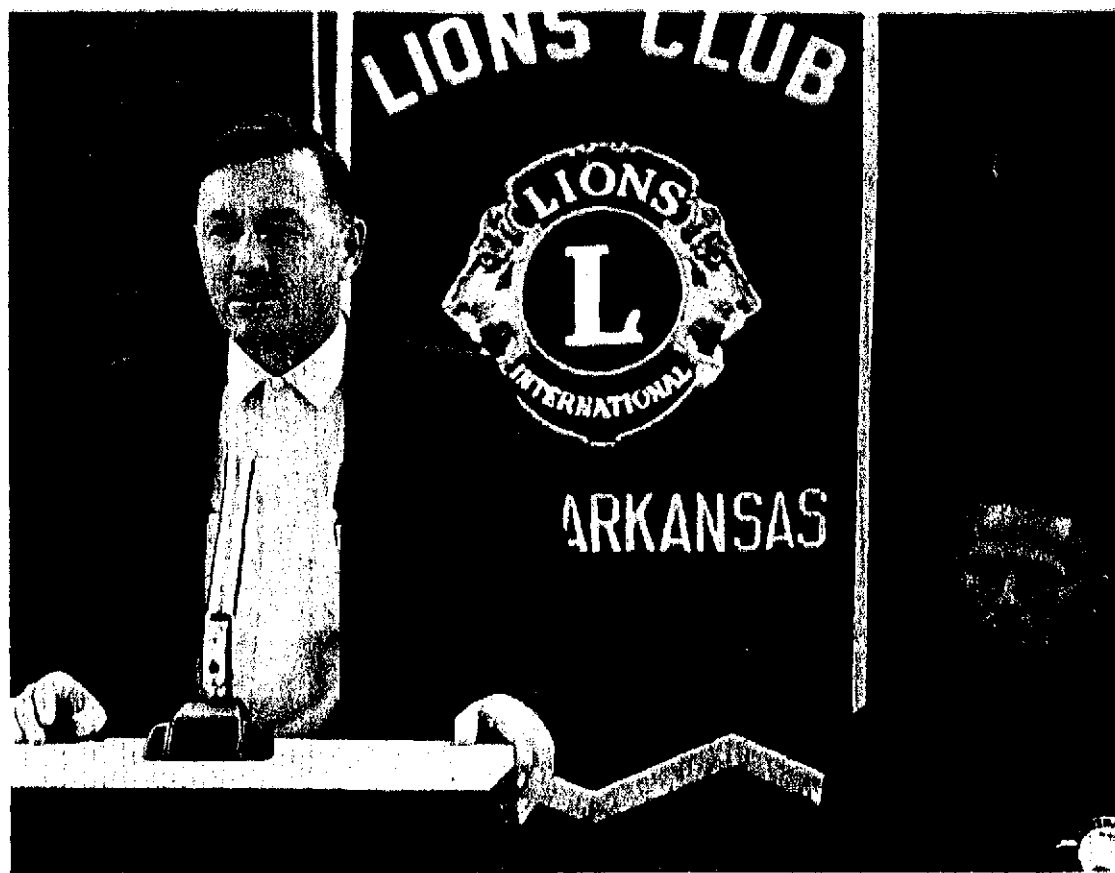

Ward's Automotive Reports, an industry statistical agency, reported in mid-month that the four top producers were trimming back their planned November production by 58,000 cars.

If General Motors were to slice its hourly rated work force of 430,000 by 8.1 per cent in December and January to match production slowdown, that would result in a cut of 38,700 men.

The layoff backstops are provided by what is known as a "supplemental unemployment benefit fund," or "SUB."

Combined SUB funds now total more than \$332 million.

## Thanksgiving Union Service Planned Here

The Hope Ministerial Alliance has completed plans for the Union Thanksgiving Service to be held Thursday mornint at nine o'clock in the First Assembly of God Church.

The Rev. L. T. Lawrence will preside. Dr. Lester Sitzes will be the Song Leader and Mrs. Arthur Strech will serve as Organist. The Rev. George C. Prentice will give the invocation and read the Scriptures. The Rev. Gerald Schleiff will offer the Prayer of Thanksgiving. The Rev. Johnnie Beasley will bring the message. His sermon will be: "Will His People Give Thanks?"

The Offering will go to the Hope Ministerial Alliance. It depends principally upon the Thanksgiving offering to obtain the funds to carry on the united work of the participating churches. Due to its efforts to carry on an effective program in this community during the past year its funds are exhausted. A balance of \$5.41 is in the treasury and the bill for the Bulletin to be used in the Service is a higher sum than the balance.

The ministers believe that the Christians of the community will continue their liberal support of the Alliance and its work.

An invitation is extended to all to attend this Service.

## Romney Offers to Meet With Regan

DORADO BEACH, Fla. (AP) — In an overture toward Republican unity, Gov. George Romney of Michigan has offered to meet with Gov.-elect Ronald Reagan of California to "develop understanding" between the party's liberal and conservative wings.

Romney, a leader of the liberal camp and possible candidate for the 1968 GOP nomination for president, suggested at a news conference Monday that Reagan eventually may be forced to join the liberals as he gains practical experience in coping with California's problems.

Asked about Romney's comments, Reagan said in San Francisco that he has been consistent in his views. He quipped that he isn't planning on becoming governor of Michigan.

Reagan said earlier that Romney had failed to support the 1964 Republican ticket headed by conservative Barry Goldwater. Romney rejected the charge, saying he had carried Michigan for the GOP by "emphasizing the Republican record of progress in Michigan."

Gov. Nelson A. Rockefeller of New York, who held the news conference with Romney, nodded in agreement as the Michigan governor offered "to sit down with Reagan and talk things through and develop understanding."

The two vacationing liberal Republican governors met with newsmen after a 2½-hour luncheon. Rockefeller was to return to New York today. Romney and his wife will stay until Dec. 4.

At yesterday's Lions luncheon at Town & Country, Elmer Parks, dist. supervisor of the Nashville Dist. for International Paper Co., showed a film, The Paper Forest. Bill Ellis brought the program and guests were Harold Hendrix and Richard Keaton. Dewane Hendrix was taken in as a new member.

## Many Want Full Probe of JFK Killing

By DICK BARNES  
WASHINGTON (AP) — Controversy over the shots fired during the assassination of President John F. Kennedy reached new heights on this third anniversary of the Dallas tragedy.

Sen. Russell B. Long, D-La., and former Kennedy adviser Arthur M. Schlesinger Jr. called for further investigation.

But Sen. Richard B. Russell, D-Ga., a member of the Warren Commission, and former Kennedy press aide Malcolm M. Kilguff, while disputing commission findings about the shots, took no issue with the over-all commission conclusion that Lee Harvey Oswald, acting alone, killed Kennedy.

Life magazine, disputing findings about the shots, called in this week's issue for a new investigation. Texas Gov. John B. Connally, wounded during the assassination, was quoted by Life as in positive disagreement with commission findings about the shots.

A spate of recent books has questioned the commission report. This week's newest round of debate is the most concentrated yet by present and past government officials.

Starting point for the new questioning is the commission finding that one bullet wounded both Kennedy and Connally. Some—but not all—of the critics move from here to the question of whether a second person fired at the Kennedy motorcade on that early Dallas afternoon.

Long said in New Orleans Monday he has always thought that a second person was involved.

The assistant Senate Democratic leader, in answer to a newsmen's questions, said that although there is no doubt that Oswald played a part in the assassination, "whoever fired that second shot was a much better shot than Oswald."

The commission said three shots were fired. It concluded that one hit Kennedy and Connally, a later shot inflicted the major damage on Kennedy and one shot missed. The commission was unable to conclude which of the three shots missed.

As in the past the Star will suspend publication November 24, Thanksgiving day. This newspaper observes two other holidays during the year, the others being July 4 and Christmas Day. Regular publication will resume on Friday, Nov. 25.

## Man Hit and Killed by Car

FORREST CITY, Ark. (AP) — James Hobbs, 84, of Forrest City was killed Monday night when he was struck by a car driven by Harold Pipkins, 20, of Forrest City, police said. Officers said Hobbs was crossing a street in a residential section when he was hit.

## Quorum Co. Sets County Expenses

In session yesterday at Hempstead Court House the Quorum Court approved all existing tax issues and set appropriations at \$68,485. The appropriations follow:

County Court	\$ 300
Justice Court	300
Civil Court	5,000
Jail Expense	3,000
Paupers	500
Misc. Exp.	4,000
Courthouse-Jail	4,000
Officers salaries	15,000
Crippled Child. Home	200
Ass. & Tax books	4,200
Records & Stat.	4,000
Municipal Court	3,600
Advertising	100
Health Dept.	8,535
Judge Expenses	1,500
Sheriff's Expense	1,200
Co. Farm Agent	1,650
Co. Home Agent	1,500
Asso. Co. Agent	1,100
Extension Secy.	400
Negro Farm Agent	1,100
Negro Home Agent	1,100
Crittenden Home	200
Courthouse repair	2,000
Millwood Patrol	2,000
SCS Clerical Help	2,000
Country's Part	2,000
	\$68,485

## Turkey Lunch for Men in Viet Nam

By BOB HORTON  
WASHINGTON (AP) — The U.S. fighting man in Viet Nam, described as the best fed in American wartime history, will get a hearty dinner of roast turkey with trimmings Thanksgiving Day.

It ought to be enough to make the Viet Cong cry.

In contrast with the Communists' basic diet of rice and fish, American troops in Southeast Asia will be getting a hot holiday meal consisting of:

Shrimp cocktail with crackers.  
Turkey with giblet gravy.  
Bread dressing.  
Cranberry sauce.  
Candied sweet potatoes.  
Mixed vegetables.  
And assorted relishes, hot rolls with margarine or butter, mince meat or pumpkin pie, fruit and candy, plus coffee, tea or milk.

This is the Thanksgiving menu laid out for American soldiers, sailors, airmen and Marines around the world, including the war theater.

Compare that with the basic fare of the North Vietnamese and Viet Cong of about 1.5 pounds daily of rice, salt, fish and nuoc mam (fish sauce).

Paul R. Ignatius, assistant secretary of defense for installations and logistics, said over 88 per cent of the meals served in Viet Nam are hot meals with fresh meat, vegetables and other fresh food items. Seven per cent are heated canned foods. Only 5 per cent are field combat rations.

He said food is being provided to U.S. troops at a rate of about seven pounds per man per day, including 30 ounces of milk per man.

"I think that without question the troops are being fed better than those in any war in history," Ignatius said.

## Special Census at Pine Bluff

PINE BLUFF, Ark. (AP) — The federal Census Bureau will begin Monday a special census of Pine Bluff. The census will cost about \$12,300. City officials estimate that the population has grown to about 60,000.

A special census in 1964 showed the city with 53,647 persons.

## UN Reflects Russia and China Feud

UNITED NATIONS, N.Y. (AP) — The feud between Moscow and Peking is reflected in the lukewarm support the Soviet Union is giving to the current attempt to seat Red China in the United Nations.

Following loud demands by Albania and African radicals to throw the Chinese Nationalists out and give their seat to the Communist mainland regime, the Soviet appeal Monday seemed almost perfunctory.

In a 10-minute speech to the General Assembly, Soviet Ambassador Nikolai T. Fedorenko rejected a proposed committee study of the question for the next year and turned down the idea of settling the 16-year-old question by seating both Chinas.

Fedorenko gave token support to the argument that the Peking regime alone has the right to represent China in the United Nations but omitted the usual praise of the mainland government.

The Soviets have never been reticent before about repeating the same arguments in detail year after year. Their apathetic attitude during the current China debate and their failure to cosponsor the resolution to seat Peking was seen as a clear reflection of the increasing bitterness in Soviet-Chinese relations.

Delegates also noted the brevity of U.S. Ambassador Arthur J. Goldberg's speech and the fact that it focussed on keeping Nationalist China in the United Nations rather than barring Red China.

Goldberg's acceptance of the idea of a committee study in his 20-minute address was seen as a shift in American policy. The proposal has been viewed as a long-range maneuver to eventually seat both Chinas.

Britain, France, the Soviet Union and Nationalist China, the other members with big power status in the United Nations have all made clear they see no point in such a study group. So have a number of the African nations.

Italy, which introduced the proposal, indicated that it was picking up support, however, Belgium, Bolivia, Brazil, Chile and Trinidad and Tobago cosponsored the resolution.

## Asks Spa Mayor to Resign Post

HOT SPRINGS, Ark. (AP) — An unsuccessful write-in candidate for the state Senate asked Dan Wolf to resign as mayor of Hot Springs.

Dr. John Hoffman charged that Wolf had campaigned during working hours for his opponent, Sen. Q. Byrum Hurst, who was re-elected.

Hoffman requested also that if Wolf declined to resign that the city council impeach him.

The council adjourned without taking action.

## All Around Town

By The Star Staff

A car stolen Sunday at Thornton, Ark. was found abandoned in the 900 block on West Avenue C, City Police announced ... it was a 1962 Chevrolet.

The fall meeting of the Arkansas Optometric Association held last weekend at Coachman's Inn, Little Rock, was attended by Dr. Lloyd Guerin and Dr. Emmett Thompson of Hope.

Mrs. A.A. Albritton, Mrs. Marian Holder, Mrs. Owen Nix and Mrs. Herbert Burns went to Little Rock to see "Hello Dolly" last Thursday.

Cub Scout Pack 92 will meet at Brookwood School cafeteria Tuesday night at 7:30 ... all Cub Scouts and new members and their parents are invited.

As in the past Hope Post Office will be closed on November 24, Thanksgiving Day ... there will be no rural or city deliveries ... however, mail will be placed in boxes and dispatched as usual ... stamps are available in the lobby machine ... practically everything will be

## AP News Digest

ASSASSINATION

Controversy over the shots fired during the assassination of President John F. Kennedy reaches new heights on the third anniversary of the Dallas tragedy.

Charles F. Brehm, who as a GI was in the Normandy invasion, watched as President John F. Kennedy was shot to death. He says he is "more than satisfied" with the Warren Commission report.

S.M. Holland, an experienced hunter, says he saw the smoke of rifle fire from a wooden fence when President John F. Kennedy was assassinated. He contends the Warren Commission "watered down" his testimony.

Candy Geer, as a high school student, watched the funeral of President John F. Kennedy on television. Then she wrote a poem titled the "Six White Horses" which has been read by thousands.

VIET NAM

"This is a nice little war," says the American pilot at the start of a typical strike in South Viet Nam. The score at the end: "Four structures destroyed, seven damaged."

U.S. fighting men in Viet Nam will feast on turkey and all the trimmings Thanksgiving Day. It ought to be enough to make the Viet Cong cry.

WASHINGTON

Three years after his brother's assassination, Sen. Robert F. Kennedy is riding an uncertain crest of political popularity.

An AP News Analysis

NATIONAL

Michigan Gov. George Romney, who met with New York Gov. Nelson A. Rockefeller Monday, offers to meet with Gov.-elect Ronald Reagan of California to "develop understanding."

A complex system of radar and computers allows Navy pilots to make "hands off" landings on aircraft carriers.

Auto workers who may be idled by planned cutbacks in auto production stand to collect 62 per cent of their wages for up to six months under a current contract provision.

The Moscow-Peking feud is reflected in the lukewarm Soviet support for the current bid to seat Red China in the United Nations.

## Court Refuses Evolution Case

LITTLE ROCK (AP) — The Arkansas Supreme Court has refused to advance an appeal of a lawsuit testing the state's law against the teaching of evolution in the public schools.

The state has appealed Pulaski Chancellor Murray O. Reed's ruling that the act is unconstitutional.

Mrs. Susan Epperson, a former biology teacher here, had filed the suit and her attorney had asked the high court to advance the case for an early decision.

Winthrop Rockefeller, the GOP gubernatorial nominee, received 14,224 votes and Britt 14,220 votes according to the unofficial returns, Pilkinton said.

"It is hard for me to believe that a net of only four people in that county split their votes in the governor and lieutenant governor's race," he said.

## West Gets Nod in Phillips Co.

MARSHALL, Ark. (AP) — Democrat W. T. West defeated incumbent county treasurer Vance Phillips, a Republican, by nine votes in the Nov. 8 general election.

The Searcy County Election Commission certified its vote Monday, giving West 1,839 votes. Phillips had obtained a court order forbidding certification of the results until ballots in an absentee box had been counted. He trailed 1,813 to 1,707 in the other boxes.

Paul E. Cobb, son of Mr. and Mrs. James Tony Cobb of 402 S. Fulton, Hope, was one of 22 Southern State College students taking a field trip to the Arkansas Power and Light Company's data processing center at Pine Bluff recently ... He is a 1962 graduate of Hope High School and a senior business major, a member of Tri C, civic and commerce club.

Officer Carl D. Ward of Hope has been awarded a certificate of proficiency following an intensive supervision of police personnel course at the Arkansas Law Enforcement Training Academy ... he and his wife, Norma and son Clay, live at 1407 S. Pine.

## Pilkington Poses New Vote Issues

LITTLE ROCK (AP) — The official tabulation of votes from the Nov. 8 general election in Arkansas is expected today but one candidate raised questions about the declaration of winners in races for state constitutional offices.

James H. Pilkington, Democratic candidate for lieutenant governor, raised questions about the declaration of winners in a letter he wrote Secretary of State Kelly Bryant.

Pilkington trails his Republican opponent, Maurice (Footsie) Britt, in the unofficial election returns.

Pilkington suggested that Bryant ask the attorney general's office for an opinion before Bryant attempts "a canvass of votes for lieutenant governor."

Bryant indicated Monday that the final totals would be announced today following tabulation of an absentee box from Searcy County. It was the only box not in but State Troopers accompanied a courier from Marshall to Little Rock with the box late Monday. The counting of the absentee ballots in the box had been held up because of an election dispute.

Pilkington raised some points in his letter indicating that he may consider contesting the election, though he did not say he would.

Pilkington said state law provides that votes must be opened, canvassed and published by the speaker of the House of Representatives during the first week of the legislative session.

He also said that "a contest may be had thereafter and the law seems to be that such a contest shall be settled by the joint vote of both houses of the legislature."

Bryant said that all he does is to compile a county-by-county tabulation of the votes. He said he had no authority to certify winners of constitutional races.

Pilkington had issued a victory statement about noon the day after the election when it appeared that he had a 6,000 vote lead. That lead dwindled and Britt finally went into the lead to stay in the unofficial tabulation.

Pilkington also expressed concern over the vote in Sebastian County, a Britt stronghold. He said the chairman of the county Board of Election Commissioners, Jean Carter, had refused to sign the official certification of the county vote because he did not think the vote was correct.

Pilkington called a study of the vote interesting.

Winthrop Rockefeller, the GOP gubernatorial nominee, received 14,224 votes and Britt 14,220 votes according to the unofficial returns, Pilkinton said.

"It is hard for me to believe that a net of only four people in that county split their votes in the governor and lieutenant governor's race," he said.

Winthrop Rockefeller, the GOP gubernatorial nominee, received 14,224 votes and Britt 14,220 votes according to the unofficial returns, Pilkinton said.

"It is hard for me to believe that a net of only four people in that county split their votes in the governor and lieutenant governor's race," he said.
